AUTHOR	Gaylord, Thomas; Maffei, Diane; Rogers, Greg; Sponseller, Eric
TITLE	The University of Akron Fact Book, 2003.
INSTITUTION	Akron Univ., OH.
PUB DATE	2003-04-00
NOTE	339p.; Produced by the Institutional Planning, Analysis, Reporting and Data Administration. For the 2002 Fact Book, see ED 469 644.
AVAILABLE FROM	For full text: http://www3.uakron.edu/iplan/factbook2003/factbook2003_complete.pdf.
PUB TYPE	Books (010) -- Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	EDRS Price MF01/PC14 Plus Postage.
DESCRIPTORS	Academic Achievement; *College Faculty; *Enrollment; Higher Education; *Institutional Characteristics; Professional Education; Program Descriptions ; *Student Characteristics
IDENTIFIERS	*University of Akron OH

ABSTRACT

This fact book provides comprehensive information about the University of Akron, Ohio. It is intended to be a reference for answering frequently asked questions about the institution. With an enrollment of more than 24,300, the University of Akron is among the 75 largest public universities in the United States. Approximately 800 full-time faculty members teach undergraduates and graduates from 42 states and 84 foreign countries. Information is provided in these categories: (1) "Historical and General Information"; (2) "Academic & Program Information"; (3) "Student Information"; (4) "Faculty & Staff Information"; (5) "Budget & Financial Information"; (6) "Research & Information Services"; and (7) "Facilities Information." A glossary and list of abbreviations are attached. (Contains 159 figures.) (SLD)

Preface

This Fact Book, Dear Colleagues . . .

. . . is The University of Akron's record of growth and leadership. Serving as both a map and a journal, it documents the dynamic steps we have taken over the past year. It allows each and every individual to see how her or his contribution has helped shape our university and is helping to define our path to the future.

The Fact Book describes the elements of our evolving goals and vision. It chronicles some of the excellence that makes The University of Akron *the* public research university for northern Ohio, including some recent achievements of which we are very proud:

- The University of Akron has been selected as one of the nation's 12 Campus Program Clusters Leaders, a designation formally known as the Carnegie Teaching Academy.
- *U.S. News & World Report* ranked The University of Akron's College of Polymer Science and Polymer Engineering second in the nation, making Akron the only public university in Ohio with a science and engineering program ranked among the nation's top five.
- The New Landscape for Learning campus enhancement program is adding 6 new buildings and providing major expansions or renovations to 14 other structures. And, the University is generating more than 31 acres of open space and planting 30,000 trees to create a park-like atmosphere. At the same time, The University of Akron is creating a New Landscape for Living through its initiation of the University Park Alliance. In partnership with the City of Akron and Summa Health Care, we are launching a community revitalization project in the 40-block neighborhood immediately surrounding the campus.
- The University of Akron's IT leadership is increasingly recognized across Ohio and around the country. These leadership projects include a 10-gigabit network, enabling the university to meet the exploding demand of e-Learning technology and our Technology Without Boundaries initiatives. Just as significant has been IT's ability to attract federal and private sector grants and donations, which amounted to a record $7.2 million in the first six months of the current fiscal year.
- The March 2002 issue of *National Jurist* magazine selected The University of Akron School of Law as the best value in the nation, and our graduates had the highest passing percentage in all three categories of the February 2002 Ohio Bar Exam.
- We have created the Career Advantage Network (CAN), a program offered through the Center for Career Management that provides guaranteed, major-related, experiential learning opportunities prior to graduation for every qualified student, regardless of academic major or degree level.

We also have enjoyed crafting some evocative language to tell ourselves and others about who we are, such as, "setting the standard for excellence and student success in northern Ohio," "experience the Akron Advantage" and "creating a New Landscape for Learning . . . where you can dream, dare and do the things it takes to change the world."

Indeed, the Fact Book reflects how the faculty, students and staff have distinguished themselves, as together we continue to take bold steps toward capturing the University's destiny. Yet, there still is much we must do, and will do, as we advance the obvious promise of The University of Akron – and share the story that is beginning to be told within the following pages.

I am deeply indebted to all of you who every day make The University of Akron better and better.

With every good wish,

Sincerely,

Luis M. Proenza, President

Acknowledgements

Timely, reliable information is key to building a better university. The *UA Fact Book 2003* contributes to that effort by providing our stakeholders with comprehensive information about The University of Akron. The Fact Book is an easy-to-read, convenient internal reference for answering some of the most frequently asked questions about our institution. At the same time, examination of the historical and current data should provide guidance as we map out our future direction. The utility of the Fact Book lays the foundation needed to effectively construct a more integrated, accessible and flexible web-based decision support infrastructure *[see www.uakron.edu/iPLAN for electronic versions of this and other analyses]*.

The *UA Fact Book 2003* would not have been possible without the effort, cooperation and assistance of many people. iPLAN's sincere appreciation is extended to the following people who directly contributed to the development and construction of the *UA Fact Book 2003*:

Section 1: Sincere appreciation is extended to President Luis M. Proenza, Ms. Becky Hoover Hoover, Mrs. Dana Zaratsian and the President's Office, Dr. Terry L. Hickey, Ms. Nancy Stokes and the Office of the Provost, Mr. Ted Mallo, Mr. Russell Sibert and the Office of the Board of Trustees, Mrs. Christine Curry and the Alumni Association Center, and Ms. Lois Peplinski and the Department of Development, Dr. David P. Ayers, Ms. Linda Marx and the Office of International Programs and Heather Blake of the Graduate School. Special thanks are extended to Dr. George Knepper for help on UA's history, and Mr. Paul Herold, Ms. Beth Sampsel and Institutional Marketing for collecting and reviewing this information.

Section 2/3: Special thanks go to Mrs. Peg Shriber and the Department of Development for providing alumni data.

Section 4: We thank Ms. Kathy R. Watson and the Human Resource office. They were instrumental in revising the classification of positions by job type categories. We also thank Ms. Betty Miller who created the faculty and staff data extracts.

Section 5: Budget and Finance information was developed with the assistance of Mr. Brett Riebau and the Controller's Office, Ms. Amy Gilliland and the Office of Resource Analysis and Budgeting and Ms.Gail Scheffer, Mr. Douglas A. McNutt and the Office of Student Financial Aid, and Mr. Matt Petras of Information Services.

Section 6: We thank Mr. Gerald Parker and Ms. Ruth Conner of the Office of Research & Sponsored Programs, Dr. William Beisel, Dean of Workforce Development and Continuing Education, Mr. Thomas Beitl and Mr. Thomas Oberdier from Enterprise Hardware Operations and Systems Program Services, Dr. John Hirschbuhl, Mr. Dwight Bishop, and Ms. Holly Mothes of Learning Technologies and Scholar/Learning Services, Mrs. Phyllis O'Connor of the University Libraries, Mr. Paul Richert in the Law Library, and Ms. Elys Kettling of Wayne College. Special thanks to Mr. Eric Veigel of Distributed Education Facilities, Ms. Litsa Varonis of Design and Development Services, and Ms. Phyllis Parker of the Registrar's Office for their assistance in redesigning Tables 6.12 and 6.13.

Section 7: Thanks are also extended to Mr. James Haskell of the Office of Space Utilization for verification, Ms. Betty Miller for creating the facilities extracts, and Ms. Valerie Bloodsworth of the Office of Residence Life and Housing who provided data on residential buildings and occupancy rates.

We appreciate the assistance of Ms. Beth L. Sampsel, Mr. J.D. Spinner, Mr. Jeff Harwell, Ms. Nancy Bracher and all the staff of Institutional Marketing who designed a great cover and handled the printing arrangements.

We welcome your suggestions to help us improve the decision support information needed by the University. Please feel free to contact me or iPLAN with your ideas, suggestions, and information.

Thank you all for building a better University,

Thomas Gaylord, Ph.D.
Vice President/CIO

Section 1: Historical and General Information

Section 1.1: General Description

The University of Akron, northern Ohio's leading public university, is a world leader in creating new materials for the new economy; a national leader in the development, protection, management and commercialization of intellectual property; and a regional leader in information technology initiatives.

Akron is the only public university in Ohio to have a science and engineering program ranked in the top five nationally; its polymer science and engineering program, ranked second in the U.S., serves Ohio's $22 billion polymer industry and includes a NASA-supported nanotechnology initiative. The University also has strong ties with business leaders, including information technology partnerships with IBM, Cisco Systems and Time Warner, among others.

The University of Akron excels in many other areas as well, with more documented excellence than any other public university in Northern Ohio. The scope of that quality and its effects are evident in four clusters of excellence – Discovery and Innovation, Cultural Enrichment, Community Well Being and Economic Development.

With an enrollment of more than 24,300, The University of Akron is among the 75 largest public universities in the country. Approximately 800 full-time faculty members teach undergraduate and graduate students from 42 states and 84 foreign countries.

The institution offers more than 350 undergraduate, master's, doctoral and law degree programs. Through enhanced evening and weekend programs, on-site and distance learning classes at convenient locations throughout Summit and Medina counties, and its Wayne College branch campus in Orrville, The University of Akron gives students exceptional scheduling flexibility and convenience, in addition to a broad range of academic choices.

The University's responsiveness to the region's educational and technological needs has been its hallmark throughout the school's history.

The institution was founded as Buchtel College in 1870 by the Ohio Universalist Convention, which was strongly influenced by the efforts, energy and financial support of Akronites, particularly industrialist John R. Buchtel. From the outset, the college and the surrounding community were closely tied, with the college addressing the needs of the region as well as those of the Universalist Church and local entrepreneurs assisting the fledgling institution time and again. By 1907, Buchtel College's emphasis on local rather than denominational interests led it to become a private, non-denominational school.

The college's strong ties to the community and its challenging financial situation prompted Buchtel College trustees to transfer the institution and its assets to the city of Akron in 1913. For the next 54 years, the municipal University of Akron, assisted by city tax funds, brought college education within the reach of many more young people. During those years, enrollment swelled from 198 to about 10,000.

The University's growth paralleled the remarkable expansion of Akron. People were drawn to the city, already a major manufacturing center, by the promise of jobs. Companies such as Goodyear, Firestone and Goodrich were headquartered in Akron, so it was only natural that the world's first courses in rubber chemistry would be offered at the University, beginning in 1909. With the formation of the Rubber Technical Institute in 1942, University researchers and students were well prepared to contribute to the development of synthetic rubber to aid the Allied war efforts.

A long era of expansion followed World War II. Overseeing much of this growth was the University's 10th president, Dr. Norman P. Auburn. Under Auburn's leadership, the institution made the transition in 1967 from a municipal to a state university.

In the years to follow, as tire production jobs left the Akron area, the University's pioneering research was instrumental in helping the once-undisputed Rubber Capital of the United States evolve into the polymer center of the world.

In 1988, the University established the world's first College of Polymer Science and Polymer Engineering — now the largest academic program of its kind in the world.

Led today by its 15th president, Dr. Luis M. Proenza, The University of Akron has embarked on an ambitious $200 million campaign to create a New Landscape for Learning.

Construction of 6 new buildings, renovation of 14 other structures, the closing of two streets through campus and the addition of 30 acres of green space are underway. New degrees and certificates are offered in such areas as computer engineering, intellectual property law, e-commerce and international business. Research into biomaterials, nanotechnology and other emerging sciences offers hope for astounding medical and technological breakthroughs – and innovative activities in the arts and in community service continue to define and enhance the quality of life for those in the region and beyond.

The University of Akron begins the 21st century poised to become the public research university for Northern Ohio, comparable to what The Ohio State University has long been for Central Ohio and to what the University of Cincinnati has more recently become for Southern Ohio.

Section 1.2: Mission and Strategic Directions

1.2.1 Mission

The University of Akron, a publicly assisted metropolitan institution, strives to develop enlightened members of society. It offers comprehensive programs of instruction from associate through doctoral levels, pursues a vigorous agenda of research in the arts, sciences and professions, and provides service to the community. The University pursues excellence in undergraduate and graduate education and distinction in selected areas of graduate instruction, inquiry and creative activity.

1.2.2 Fundamental Strategies

- Attract and retain a higher quality and more diverse student body.
- Identify and eliminate barriers to a campus culture of service and make every effort to improve the campus environment.
- Increase student retention and progress toward completion of their academic programs.
- Improve the quality of the undergraduate experience.
- Cultivate scholarly and creative activities that are recognized regionally, nationally and internationally.
- Acquire and efficiently utilize the human, informational,

financial and physical campus resources needed to fulfill the mission of The University of Akron.

1.2.3 Charting the Course

Today, the University stands on the threshold of a fundamental shift in thinking and a sweeping recommitment of institutional talents, energies and resources toward attaining even greater excellence. The blueprint for change is "Charting the Course," which provides a common framework of understanding and direction. The Balanced Scorecard project will align operational objectives with strategic vision. "Charting the Course" and the Balanced Scorecard are ongoing and dynamic processes that begin with the University's fundamental strategies and builds to where the institution envisions itself in the future.

1.2.4 Preamble

As we, The University of Akron, move into our 132nd year . . .

. . We are cognizant of the transformations that have marked the University's history, from our founding in 1870 as a private liberal arts school, to our transition in 1913 to the Municipal University of Akron and to our becoming a state university in 1967;

. . . We are grateful for our Founders, mindful of our traditions and enthusiastic about our future; and,

. . . We recognize that we create our future as a collaborative enterprise based upon a common framework of understanding and direction.

Charting the Course is that framework.

1.2.5 Who We Are . . .

Our expertise creates the new materials for the new economy,

And shapes the communities that we serve.

We are The University in, of and for Akron,

The public research university for Northern Ohio,

We are you.

1.2.6 Vision & Strategic Intent

Objective and documented excellence tells us that The University of Akron is already the leading public university in northern Ohio and signals a clear promise and destiny. We have framed our vision as a Statement of Strategic Intent:

The University of Akron will be recognized as the public research university for northern Ohio, the university devoted to the education and success of its students and to the production, integration and dissemination of knowledge for the public good. It intends to achieve a prominence in northern Ohio comparable to that which Ohio State has long enjoyed in Central Ohio and which the University of Cincinnati has begun to achieve in the southern part of the state.

1.2.7 Priorities

Our number one priority is student success. Enabling student success will continue to be the hallmark of The University of Akron. We recognize, importantly, that students are the responsibility of all of us at the University, not just of those in our Admissions Office or of faculty in our classrooms. Moreover, we recognize that in today's knowledge economy students must be technologically competent and that the University must employ only the best management information systems. Thus, as a point of comparative advantage, we will be leaders in information technology.

1.2.8 Clusters of Excellence

We see The University of Akron as consisting of a set of four interrelated clusters of excellence that interweave to comprise the tapestry of who we are. Through the four clusters, the University is, in turn, engaged with the larger community that is Akron and Northeast Ohio. The four clusters of excellence are:

- Discovery & Innovation – All that we do to create and to protect new knowledge and technologies
- Cultural Enrichment – All that we do to define the cultural well being of the Greater Akron region
- Community Well Being – All that we do to enhance the general well being of our community
- Economic Development – All that we do to enhance the economy of Akron, Ohio, the nation and the world

1.2.9 Enabling Competencies

- First and foremost, we see our people – the students, faculty, staff, alumni and our community. We are The University of Akron! We are you!
- We see that there is much about the University that is vastly under-celebrated. In fact, there is more documented excellence at The University of Akron than at any other public university in northern Ohio and more excellence than any one of us previously seemed to recognize. The University of Akron, like the hometown hero who is lost in the all-too-common "strangeness of the familiar," is far better than anyone has acknowledged.
- We see the exceptional success of our students and graduates, their leadership positions, their love of the University and their continued engagement with us. They demonstrate that the University has a significant capacity to enable student success. This means that we have an environment conducive to opportunity and one where students acquire the skills, knowledge and disposition with which they can capture and experience success. Thus, we recognize student success as a core competency.
- We see that our location in Akron, at the heart of a thriving regional economy, is a significant competitive advantage. Indeed, The University of Akron is in, of and for Akron, and community engagement is at the core of our portfolio of opportunities.
- Finally, we see that shared leadership is the enabling power of this University. We know that there will be no limit to what we can accomplish so long as we work collaboratively toward a common vision, and we recognize that defining and realizing that common vision is what the process of strategic thinking is all about.

1.2.10 Strategies

We employ five strategies to guide our initiatives. (Note: Parenthetical items are ongoing projects related to the strategy.)

- Campus Enhancement:
  We are creating a New Landscape for Learning. We are constructing 6 new buildings, and undertaking major remodeling or additions in 14 other structures. We are adding 30 acres of green space at the core of the campus and planting 30,000 new trees along walkways, plazas and terraces. We are also forming partnerships that will reshape our surrounding environment so as to create an extended opportunity for positive engagement

with the communities beyond our campus. (Campus Master Plan; University Park Neighborhood Revitalization)

- Enrollment Management:
  We will strategically shape and determine the quality, diversity and size of our student body. We will take aggressive and deliberate action to reverse the enrollment trends of the last 10 years through increased recruitment and retention activities. (Professional development of faculty and staff will assist us in the implementation of this strategy.)
- Revenue Enhancement & Diversification:
  We will enhance and diversify our revenues through additional federal funds from grants and contracts, increased state funding and additional private fund-raising. With 93 percent of our current revenues now derived from enrollment-related sources, the University must gain new revenues and achieve other efficiencies. (Continuous Quality Improvement; Incentive-Based Budgeting; Ohio Polymer Enterprise Development Corporation; Ohio Eminent Scholars; Federal/State Relations)
- Focused Differentiation:
  We will set ourselves apart and build our reputation upon unique strengths that generate opportunities for synergy and leverage. We will differentiate ourselves from the competition so as to let students know why this should be their university of choice. We will attain technological and programmatic excellence related to our setting so as to create competitive and comparative advantage. Importantly, we recognize that building focused excellence will enhance the breadth and depth of our total educational offerings, thereby making The University of Akron more attractive to students, faculty and staff. (Career Advantage Program – The Akron Advantage; Honors Program; Ubiquitous Computing; Carnegie Teaching Academy; Enhanced Research Programs; Clusters of Excellence)
- Telling the story:
  We will share our pride objectively, document our points of excellence and provide students the differentiating information to make The University of Akron their university of choice. We will increasingly attain recognition as the leading public research university in Northern Ohio. (Advertising and Public Relations Campaign)

Source: Board of Trustees and Office of the President

Section 1.3: Basis in Ohio Law

The General Powers and provisions applicable to State Universities in Ohio are found in Chapter 3345 of the Ohio Revised Code. The legal authority for The University of Akron is found in Chapter 3359 of the Revised Code. Specifically, Section 3359.01 states:

(A) There is hereby created a state university to be known as "The University of Akron." The government of The University of Akron is vested in a board of eleven trustees who shall be appointed by the governor, with the advice and consent of the senate. Two of the trustees shall be students at The University of Akron, and their selection and terms shall be in accordance with division (B) of this section. Except for the terms of student members, terms of office shall be for nine years, commencing on the second day of July and ending on the first day of July. Each trustee shall hold office from the date of his appointment until the end of the term for which he was appointed. Any trustee appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall hold office for the remainder of such term. Any trustee shall continue in office subsequent to the expiration date of his term until his successor takes office, or until a period of sixty days has elapsed, whichever occurs first. No person who has served a full nine-year term or more than six years of such a term shall be eligible for reappointment. The trustees shall receive no compensation for their services but shall be paid their reasonable necessary expenses while engaged in the discharge of their official duties. A majority of the board constitutes a quorum.

(B) The student members of the board of trustees of The University of Akron have no voting power on the board. Student members shall not be considered as members of the board in determining whether a quorum is present. Student members shall not be entitled to attend executive sessions of the board. The student members of the board shall be appointed by the governor, with the advice and consent of the senate, from a group of five candidates selected pursuant to a procedure adopted by the university's student governments and approved by the university's board of trustees. The initial term of office of one of the student members shall commence on July 2, 1988 and shall expire on July 1, 1989, and the initial term of office of the other student member shall commence on July 2, 1988 and expire on July 1, 1990. Thereafter, terms of office of student members shall be for two years, each term ending on the same day of the same month of the year as the term it succeeds. In the event that a student member cannot fulfill his two-year term, a replacement shall be selected to fill the unexpired term in the same manner used to make the original selection.

Section 1.4: Accreditation

Accreditation assures that degrees are recognized and approved by select regional and national education associations, societies and councils. Accreditation serve two fundamental purposes: quality assurance and institutional and program improvement.

There are two types of accreditation of educational institutions: institutional accreditation and specialized accreditation. Institutional accreditation evaluates the entire institution and accredits it as a whole. The University of Akron has been approved by **The Higher Learning Commission of The North Central Association of Colleges and Schools** (30 North La Salle Street, Suite 2400 Chicago, IL 60602 (800) 621-7440) since 1914 and has been reaccredited at the highest level as a comprehensive doctoral degree-granting institution.

Institutional accreditation is separate from the accreditation given by professional associations or organizations. Specialized accreditation evaluates particular units, schools or programs within an institution and is often associated with national professional associations or with specific disciplines.

Accreditation provides the security of knowing that the University will honor most credits earned at a similarly accredited college or university. Degrees earned at the University are respected and sought after by prospective employers.

Institutional Accreditation:
The Higher Learning Commission of The North Central Association of Colleges and Schools

Specialized Accreditations:

AACSB-The Association to Advance Collegiate Schools of Business
Accreditation Board for Engineering and Technology
America Association for Family and Consumer Science
American Association of Nurse Anesthesia
American Chemical Society (certification)
American Dietetic Association
American Psychological Association
American Speech-Language-Hearing Association
Association of Collegiate Business Schools and Programs
Commission on Collegiate Nursing Education
Committee on Allied Health Education and Accreditation of American Medical Association
Council for the Accreditation of Counseling and Related Educational Programs (provisional)
Council on Academic Accreditation: American Speech-Language-Hearing Association
Council on Accreditation of Nurse Anesthesia Education Programs
Council on Social Work Education
Foundation for Interior Design Education Research
International Association of Counseling Services
International Fire Service Accreditation Congress
Joint Review Committee on Education and Radiologic Technology
National Academy of Early Childhood Programs
National Association of Education for Young Children
National Association of Schools of Art and Design
National Association of Schools of Dance
National Association of Schools of Music
National Association of Schools of Public Affairs and Administration
National Athletic Training Association (candidacy through 2002)
National Certification Board of Pediatrics Nurse Practitioners and Nurses
National Council for Accreditation of Teacher Education
National League of Nursing Accrediting Commission
Ohio Board of Nursing
Ohio Department of Education
Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.

The **School of Law** is accredited by or holds membership in the following:
America Bar Association
Association of American Law Schools

The **University** also holds membership in the following educational organizations
American Association of Colleges for Teacher Education
American Association of Colleges of Nursing
American Association of Community Colleges
American Association of State Colleges and Universities
American Council on Education
American Society for Engineering Education
American Society for Training and Development
Council of Graduate Schools
Department of Baccalaureate and Higher Degree Programs (National League for Nursing)
International Council on Education for Teaching (associate)
Midwestern Association of Graduate Schools
National Association of Graduate Admission Professionals
National Association of State Universities and Land-Grand Universities
North American Association of Summer Sessions
Ohio College Association
Ohio Continuing Higher Education Association
United States Association of Evening Students
University Council on Education for Public Responsibility
University Continuing Education Association

The American Association of University Women grants membership to women graduates with approved baccalaureate degrees from The University of Akron.

Section 1.5: Historical Highlights

FOUNDER JOHN R. BUCHTEL, BOARD PRESIDENT 1870-1892

Akron industrialist John R. Buchtel was instrumental in persuading the Ohio Universalist Convention to found its college in Akron. He and his wife, Elizabeth, donated $31,000 of the $60,000 required to build the College and remained closely involved in its daily affairs. They often provided food, loans and other support to students, and Mr. Buchtel guided the business operations of the College. Despite many other interests, the Buchtels devoted most of their energies and fortune to the College, donating a total of nearly one-half million dollars.

1870 The institution now known as The University of Akron is founded as Buchtel College by the Ohio Universalist Convention. Its site, Akron, is a small but steadily growing city of 10,000 along the Ohio & Erie Canal.

1871 The cornerstone for Buchtel College is laid on July 4. The speaker for the occasion is Horace Greeley, editor of the New York Tribune, a prominent Universalist and a soon-to-be candidate for the presidency of the U.S.

PRESIDENT SULLIVAN H. MCCOLLESTER, 1872-1878

An ordained Universalist minister, Sullivan H. McCollester became the College's first president in 1872. His official title was President of the Faculty, so McCollester – and his immediate successors – served as chief academic officer, while the Board of Trustees handled business and management functions. In 1878, despite having the support of the Board, McCollester resigned due to church quarrels in which student factions were enlisted.

1872 Buchtel College opens its doors to 46 collegiate students, 171 preparatory students and seven faculty members in September. The College offers three courses of study – bachelors of arts, of philosophy and of science. Tuition is $30 and rent just $10 per year. Board costs, including utilities and laundry, are $5 per week. For the first 27 years of its existence, most of Buchtel College's academic and social activities take place in one five-story building.

The first endowed chair is established, the Professorship of Mental and Moral Philosophy.

1873 Susie Chamberlain becomes Buchtel College's first graduate. She later joins the faculty.

Along with fraternities, sororities and a variety of special-interest clubs, Buchtel's students begin participating in intercollegiate athletics through baseball.

PRESIDENT EVERETT L. REXFORD, 1878-1880

Everett L. Rexford was a young local Universalist pastor who helped found Buchtel College but preferred the pulpit to the presidency. After two productive years in office, he resigned to assume a pastorate in Detroit, after carrying on a bitter feud in the newspaper with another area pastor.

1880 The first master's degree is awarded - to William D. Shipman Buchtel College class of 1877, and the first librarian of Bierce Library.

1882 For the first time, students are allowed to choose some elective courses.

PRESIDENT ORELLO CONE, 1880-1896

The third Universalist clergyman to head Buchtel College was Orello Cone, a distinguished scholar and professor of Biblical languages and literature. During his presidency, Cone directed a successful fund-raising campaign for the first gymnasium on campus. Ironically, his resignation 16 years later was prompted in part by student and alumni resentment of his lack of enthusiasm for the football team.

1891 Buchtel College fields its first intercollegiate football.

1894 Under the leadership of a young coach named John Heisman, for whom the coveted Heisman Trophy is named, Buchtel's gridiron squad defeats Ohio State 12-6.

PRESIDENT CHARLES M. KNIGHT, 1896-1897

Charles M. Knight, a professor of chemistry and physics, was the only layman to head the school in the 19th century. He was considered to be well suited for the presidency, but he preferred teaching and agreed to serve on only an interim basis. Knight provided "steady leadership" during his year as president, then was appointed as the first Dean of the Faculty and awarded an honorary doctorate.

PRESIDENT IRA A. PRIEST, 1897-1901

Yet another pastor of the Universalist Church in Akron was chosen to lead the young institution through a very difficult period. During his four-year tenure, Ira A. Priest dealt with the effects of a nationwide economic depression and a devastating fire. He resigned in 1901 to go into business.

1899 Fire destroys 'old' Buchtel, the school's primary building housing classrooms, dormitories, the library, and cafeteria. It threatened the very existence of the struggling school, but Akron's citizens and local entrepreneurs once again come to the support of the young institution.

PRESIDENT AUGUSTUS B. CHURCH, 1901-1912

Augustus B. Church was the last Universalist clergyman to serve as president of Buchtel College and the first person to assume the broad responsibilities of chief executive officer. In fact, Church served both as president and as a trustee of the institution – as well as pastor of the local Universalist church. He died in 1912 of pneumonia brought on by exhaustion.

1907 Buchtel College becomes a non-denominational, private liberal arts college.

1909 Buchtel College offers the world's first courses in rubber chemistry.

PRESIDENT & FOUNDER PARKE R. KOLBE, 1913-1925

The last president of Buchtel College and the first president of the Municipal University of Akron grew up on the Buchtel campus. The son of Professor Carl F. Kolbe, Parke R. Kolbe added a new element to the president's role, the political leadership required of an institution that is dependent on public tax money. He is regarded as a founder of the University, due to his leadership in transforming the private college into a municipal university.

1913 Trustees transfer Buchtel College's assets to the city of Akron, creating the Municipal University of Akron. The liberal arts department is renamed the Buchtel College of Liberal Arts (now the Buchtel College of Arts and Sciences), and tuition in that college is made free to any student whose parents live in Akron.

1914 The College of Engineering is formed and pioneers one of the country's first cooperative education programs.

The new Municipal University of Akron is accredited by the North Central Association of Colleges and Schools.

1915 Evening classes are offered on a regular basis.

1921 The College of Education is formed.

PRESIDENT GEORGE F. ZOOK, 1925-1933

George F. Zook devoted most of his energy to a controversial plan to relocate the campus on 60 acres of open land just west of Hawkins Avenue on Akron's west side. The site today of Good Park Golf Course. The stock market crash of 1929 helped influence voters to reject a bond issue that would have financed the move. Still, Zook guided the University through the beginning of the Great Depression, managing to maintain both academic quality and financial solvency.

1926 Trustees change the institution's name from the Municipal University of Akron to The University of Akron.

1927 "Zippers" is the winning entry in a contest to choose a nickname for the University's athletic teams. The name, suggested by Margaret Hamlin, is that of a popular overshoe manufactured by The B.F. Goodrich Company. The company grants permission to use the copyrighted name, which eventually will be shortened to "Zips."

1932 The University's Guggenheim Airship Institute is founded to conduct research in lighter-than-air flight as a joint effort with the California Institute of Technology. The Institute boasts about having the world's largest vertical wind tunnel.

PRESIDENT HEZZLETON E. SIMMONS, 1933-1951

Hezzleton E. Simmons, known affectionately as "Prez Hez" to the school's students, raised admissions standards to control enrollment, a policy that was precipitated by severe space constraints at the University. President Simmons persuaded his board of trustees to apply for funds from two federal work-relief agencies, the Works Progress Administration and the Public Works Administration, to build Simmons Hall and the first student center.

1939 At the request of Akron students, popular band leader Fred Waring composes a fight song for the school. *The Akron Blue and Gold* premieres on Waring's weekly radio show. The song's name comes from the University's colors, which originally were adopted by Buchtel College.

1945 Demobilized World War II veterans flood college campuses nationwide, including Akron. Every conceivable space on or near campus is converted to classroom space to handle the "G.I. Bulge."

Akron voters approve levies that enable the construction of Ayer Hall and what would eventually be named Crouse Hall. Wanting to maximize the use of taxpayer dollars, the Board insists on plain, rectangular structures.

PRESIDENT & FOUNDER NORMAN P. AUBURN, 1951-1971

Recognizing that voters did not understand much of what a university did, President Norman P. Auburn advocated campus growth and beautification as a means of gaining increased public support – and he succeeded greatly. Auburn oversaw tremendous growth in enrollment and the campus itself, fueled by municipal tax levies and private fund-raising. During his tenure, Memorial Hall and Kolbe Hall were among the many buildings constructed, the land that is now Lee R. Jackson Field was purchased, and plans were organized for financing the building of E.J. Thomas Performing Arts Hall. Because he engineered such significant growth and the transition of the institution to a state university, President Auburn is regarded, along with Presidents Buchtel and Kolbe, as a founder of the University.

1952 A University District is established to control construction immediately adjacent to the campus.

1953 The College of Business Administration is formed.

1954 While a Student Council effort to change the nickname of Akron's athletic teams from "Zips" to "Kangaroos" failed, a kangaroo mascot called "Zippy" (originally "Zippie") appears.

1956 The Institute for Rubber Research is created.

1958 The vote to amend the city charter to allow the University to receive operating funds from taxpayers initially fails by 64 out of 95,626 votes. A recount shows the amendment passed by 262 votes.

1959 The University's first doctoral degree is awarded, in polymer science. In so doing, Akron becomes the fifth Ohio university to offer doctoral work, following Ohio State, Western Reserve, Case and Cincinnati.

The Akron Law School, founded in 1921, merged with the University of Akron, providing the University with its second post-baccalaureate program.

1960 For the first time since the days of Buchtel College, students reside on campus, due to the opening of a new 98-bed men's residence hall, which would later be named Ritchie Hall.

1963 The University of Akron receives its first state tax monies.

Work begins on a formal plan that will guide future development of the physical campus.

1964 The Community and Technical College is formed.

In a five-day span in October, U.S. President Lyndon Baines Johnson and his opponent for the presidency, Arizona Sen. Barry Goldwater, visit campus.

The Institute of Rubber Research is renamed as the Institute of Polymer Science.

1967 On July 1, The University of Akron officially becomes one of Ohio's state universities.

The College of Fine and Applied Arts and the College of Nursing are formed.

The Challenge '70 Capital Campaign is launched. The largest fund-raising campaign in the University's history, its goal is to raise $10 million by 1970, with most of the funds directed toward building a performing arts hall.

1971 Buchtel Hall, the only remaining structure from Buchtel College, is gutted by fire. It will be restored and will reopen in 1973.

PRESIDENT DOMINIC J. GUZZETTA, 1971-1984

Auburn's successor and former provost, Dominic J. Guzzetta, continued the campus expansion and beautification efforts. During his presidency, 15 facilities were constructed or acquired by the University, including the Rubber Bowl, which was transferred to the University by the city of Akron. The University also crossed Exchange Street – acquiring the East Crown apartment complex for dormitory space, the former Holiday Inn (now Gallucci Hall) and a former Cadillac sales and service facility (now Folk Hall).

1972 The Wayne College branch campus is established in nearby Orrville.

1973 The University of Akron joins a consortium with Kent State and Youngstown State universities to build the Northeast Ohio Universities College of Medicine in nearby Rootstown.

E.J. Thomas Performing Arts Hall opens its doors on the west side of campus on the former site of offices for John R. Buchtel's Buckeye Mower and Reaper Company.

PRESIDENT WILLIAM V. MUSE, 1984-1992

William V. Muse was known for his cooperative efforts with the city. He led the University as it "spanned the tracks," uniting the campus with Akron's central business district by acquiring the Polsky building on Main Street and its large parking deck on High Street, and the former Greyhound bus terminal on Broadway, which is now the site of the College of Business Administration building. Muse and city leaders also worked together to turn Buchtel Avenue into Buchtel Common, replacing a busy street in the middle of campus with a nicely landscaped, winding brick pedestrian walkway.

1986 The Ray C. Bliss Institute of Applied Politics is created to promote effective citizen involvement in politics. The Institute is named after the Akron alum, who was a distinguished chairman of the state and national Republican Committee, who also served as Chairman of the University's Board of Trustees.

1987 The section of Buchtel Avenue that runs through campus is closed and, during the next two years, will be transformed into Buchtel Common.

1988 The University establishes the world's first College of Polymer Science and Polymer Engineering. What began nearly 80 years before as a few courses in rubber chemistry has evolved into the largest academic program of its kind in the world. The city once known as the "Rubber Capital of the World" now is an international center of polymer research.

The University of Akron Press is founded. By 2001, it will publish 46 books and earn numerous national awards.

1991 The Polymer Science Building (later to be named the Goodyear Polymer Center) is dedicated. It will become a landmark for the campus and the city.

1992 Marion A. Ruebel serves as acting president from March through July, while a search is completed to replace President Muse.

PRESIDENT PEGGY GORDON ELLIOTT, 1992 – 1996

The University's first woman president, Peggy Gordon Elliott, sought to make the campus more "student-friendly," especially in serving those older and part-time students whom she called the "New Majority." During President Elliott's tenure the University Council was dissolved and the Faculty Senate created to provide a new system of governance for the institution.

1993 Faculty Senate is chartered.

1994 The Polsky Building on Main Street is opened. It is Ohio's largest academic building, the largest construction project undertaken by the University to date and a prominent extension of the campus into downtown.

1996 The polymer science program breaks into the top five of national rankings by *U.S. News & World Report* for the first time. The program is ranked second in the U.S.

PRESIDENT MARION A. RUEBEL, 1996 – 1998

During his 26-year career at the University prior to becoming president, Marion A. Ruebel had served in nearly every top administrative position, earning him the unofficial title of "designated hitter." The long-time education professor sought to improve the quality of education throughout the continuum, from kindergarten through college, and he expanded access to the University through a distance learning initiative, increased off-campus programming and a greatly enhanced scholarship program.

1996 Holdings of the University libraries pass the 1-million-volume mark in July.

The Scholarships for Excellence initiative is launched. It will create 200 full academic scholarships by 2000.

1997 The Medina Link project is begun, putting University resources within reach of more than 26,000 public school students throughout Medina County via distance learning technology.
In December, the University hosts United States President Bill Clinton for a nationally broadcast "town hall meeting" discussion titled, "One America: President Clinton's Initiative on Race."

1998 Former U.S. President George Herbert Walker Bush speaks at the School of Law Dean's Club Dinner in January.

With a $3 million gift from The Goodyear Tire and Rubber Company, the University concludes a $125 million fund-raising campaign three years early.

Trustees approve a contract to complete a new plan for enhancing the campus and its facilities.
The University announces its intent to pursue two complementary goals – being named as a Carnegie Teaching Academy and increasing annual federal research funding to more than $15.5 million.

The University's School of Law received a $2.2 million bequest from the estate of C. Blake McDowell, Jr.

PRESIDENT LUIS M. PROENZA, 1999 – present

A nationally known spokesperson for higher education and economic development through university-based research, Luis M. Proenza is leading the University toward capturing its destiny of becoming recognized as the leading public university in northern Ohio and the public research university for northern Ohio. Through his shared leadership approach, President Proenza has engaged the University and much of the surrounding community in embracing and pursuing a new vision for the University, which is outlined in a document titled, "Charting the Course." Under his guidance, the University has undertaken a $200 million campus enhancement effort as well as aggressive enrollment management and marketing initiatives, and it has set three consecutive annual fund-raising records.

1999 The New Landscape for Learning campus development initiative is launched. With a $200 million investment, 6 new buildings and major expansions or renovations of 14 other structures will be completed during the next five years, two main streets that cut through campus will be closed, and 30 acres of new green space will be added.

1999 President Proenza begins a campus-wide strategic thinking process with a two-day retreat in which more than 150 members from all segments of the University community participate.

Dr. James D. D'Ianni, an important figure in the history and development of synthetic rubber, donates $1.75 million -- the largest individual donation ever directed to the University's research efforts.

The Center for Health and Social Policy is established.

The first annual public policy forum is held. "Innovations in State Science and Technology Practices: How State Governments Best Leverage and Drive Economic Development" draws participants from throughout the nation.

2000 Jim and Vanita Oelschlager of Oak Associates, ltd., give $10 million to the University to establish an innovative college scholarship program. It is the largest gift in the University's 130-year history.

The market value of the University's combined endowments exceeds $250 million.

The University establishes partnerships with seven industry leaders in information technology, including IBM, Cisco Systems, PeopleSoft and Time Warner.

The John S. and James L. Knight Foundation award a grant to the University to develop an outline for future revitalization of the neighborhood surrounding campus.

City of Akron officials agree to permanently close portions of Carroll and Brown/Union streets in 2001 in support of the University's New Landscape for Learning development efforts.

2001 James and Gail McCready give the University $5 million, its largest alumni donation.

The University's Center for Health and Social Policy receives a $13.7 million grant from The Robert Wood Johnson Foundation to create a new, state-of-the-art substance abuse prevention curriculum and test it nationwide. It is the largest grant in University history.

The University posts its fourth-consecutive record year for private giving, receiving donations of more than $20 million for the first time in its history.

On June 8, the first new building of the New Landscape for Learning Plan is dedicated, the Polymer Engineering Academic Center.

2002 *The National Jurist* magazine names the University's School of Law the best value among public law schools in America.

The U.S. Air Force Research Laboratory and The University of Akron establish a Collaborative Center in Polymer Photonics. The $2.7 million center begins development of a new generation of electronics that transmit data at the speed of light.

In September the University dedicates the College of Arts & Sciences building, one of the major academic facilities in the New Landscape for Learning plan. The Auburn Science Center Library Addition is also completed, and ground is broken for the new Student Recreation Center and Field House.
The University's Archives of the History of American Psychology becomes the first archive in the nation accepted into the prestigious Smithsonian Institution Affiliations program.

2003 Phase one of a new student union opens.

Section 1.6: University of Akron Alma Mater and Fight Song

1.6.1 The Alma Mater (lyrics by Augustus B. Church)
Close beside Cuyahoga's waters,
Stream of amber hue.
O'er old Buchtel Summit's glory,
Waves the Gold and Blue,

Chorus:
Hail we Akron! Sound her praises, Speed them on the gale,
Ever stand our Alma mater, Akron hail, all hail!

1.6.2 The Akron Blue and Gold (Fred Waring, 1939)
We cheer the Akron Blue and Gold,
We cheer as the colors unfold.

We pledge anew, we're all for you,
As the team goes crashing through FIGHT! FIGHT!

We cheer the Akron warriors bold,
For a fight that's a sight to behold.
So we stand up, and cheer and shout for Akron Blue and Gold.

Zzzip!............. Zip go the zippers,
Zzzzip!........... Zip go the zippers,

Akron U, Gold and Blue
All for you, And the Zippers too!

Section 1.7: Board of Trustees

Chair, Dr. Mark N. Apte
Vice Chair, Mrs. Patricia L. Graves
Vice Chair, Dr. Donald E. Demkee
Secretary, Vice President and General Counsel
Mr. Ted A. Mallo
Assistant Secretary and Vice President of Board Operations Mr. Russell D. Sibert

Dr. Mark N. Apte was appointed to the Board of Trustees in 1994 and currently serves as Chair. He received an M.D. degree from the University of Bombay in 1964. He was an Associate Professor of Medicine when he came to the USA in 1968. After training, Dr. Apte started family practice in 1974 and now is President of Family Medical Care, Inc., in Tallmadge. He is a former Trustee of the Cleveland Music

Circle, which promotes Indian Classical Music. He is Vice Chairman of the Executive Committee of the Summit County Republican Party and a member of its Finance Committee. Dr. Apte also serves as a Trustee of Northeastern Ohio Universities College of Medicine (NEOUCOM).

Mr. Edward L. Bittle, of Silver Lake, was appointed to the Board of Trustees in 2002, for a term ending July 1, 2011. Mr. Bittle is president of Seal Master Corporation and ELBEX Corporation. Prior to opening his two companies, Mr. Bittle had a 16-year career with the B.F. Goodrich Company in Akron. In 1974, he established the Seal Master Corporation and several years later, he established the ELBEX Corporation. Mr. Bittle has been active with The University of Akron. He joined the Varsity "A" Association and served as its president. He has lectured to entrepreneurship classes and also served on the University College Advisory Council. He and his wife, Frances, have endowed "The Edward L. Bittle Scholarship" and are members of the Hilltoppers-Buchtelles. Mr. Bittle was honored as a Distinguished Alumnus and became a member of the Athletic Hall of Fame when he received the Meritorious Service Award. Mr. Bittle received his B.A. degree from The University of Akron, where he joined the Lambda Chi Alpha fraternity and was selected to Theta Phi Alpha National History Honorary Society.

Dr. William F. Demas was appointed to the Board of Trustees in 2000. He attended the Polytechnic Institute of New York, the Brooklyn College of S.U.N.Y., and went on to receive an M.D. degree from the State University of New York. Dr. Demas presently holds the position of Chief of the Division of Radiotherapy at Summa Health System/Akron City Hospital, and is a professor of Clinical Radiology at Northeastern Ohio Universities College of Medicine (NEOUCOM). He also serves as a Trustee for the Akron Community Foundation; on the Admissions Committee for NEOUCOM; as a Board member of the American Cancer Society; as President of the National Medical Association, Akron-Canton Chapter; and as President and CEO of the Cancer Care Center. Dr. Demas was also a recipient of the Harold K. Stubbs Award in 1996. He is married to Olivia Patricia Demas. They have three children: Gerry, Kristina, and Alexander.

Dr. Donald E. Demkee was appointed to the Board of Trustees in 1999 and will complete his term in 2005. Dr. Demkee received his B.S. degree from The University of Akron and his D.D.S. from The Ohio State University. After serving as a Captain in the United States Air Force, he completed a residency in oral and maxillofacial surgery at the University of Cincinnati Medical Center. In 1971 and 1986, he established the Oral-Facial Surgery Centre in Wooster and Mt. Vernon, respectively. Dr. Demkee has served as Secretary and President of the Ohio State Dental Board. He is a member of the North East Regional Board of Dental Examiners, the American Association of Dental Examiners, and the American Dental Education Association. He is Past Chairman of the American Dental Association's Council on Dental Education and Licensure. Dr. Demkee is a recipient of an Ohio State Senate Outstanding Service Resolution.

Dr. John A. Fink received both his B.S. degree in Microbiology and his M.D. from The Ohio State University. A vascular surgeon, he is currently in the private practice of medicine with Akron Vascular Associates. Dr. Fink is the former Chief of the Medical Staff at Summa Health System and currently serves as Chairman of the Hospital Board of Summa Health System. Dr. Fink is also an Associate Professor of Surgery with Northeastern Ohio Universities College of Medicine (NEOUCOM). He formerly served as a member of the Board of Trustees of the Akron Me Housing Authority and as a member of the Oh Health Council. He is married to Dr. Deborah Ov and has four children. Dr. Fink was appointed to of Trustees in 1997 for a nine-year term.

Mrs. Diane C. Fisher was appointed to the Trustees in September 2000. A native of Tol Fisher is Vice President of Ronald R. Fisher Asso an alumnus of The University of Akron. A benefactor of the University, Mrs. Fisher and husband Ronald established the Fisher Sales L and the Fisher Professional Sales Institute in the Business Administration. The mother of four daugh Fisher has ten grandchildren and resides in Bath, C

Mrs. Patricia L. Graves attended The University and worked at the *Akron Beacon Journal* for a r years. She is very involved with a number of org in the Akron community, including the Children's Medical Center's Women's Board, the NEC World Golf, the Akron Automobile Association, th Community Foundation, the Akron Art Museum, th First Ladies Library, The University of Akron Committee, and the Great Trail Council, Boy America. Mrs. Graves was appointed to the Trustees in 1997 and currently serves as Vice Chai

Mr. Jon V. Helder was appointed to the Board of T 2001. He retired from The B.F. Goodrich Compan as Executive Vice President and General Couns joined Goodrich in 1984 from Air Products and C Inc., Allentown, Pennsylvania. His positions at Air included Vice President of Corporate Developme parent organization, and Vice President of Corpor and Chief Administrative Officer of Air Products Eu based in London, England. Prior thereto, he wa Counsel of Air Products and Chemicals, Inc. Mr. H cum laude graduate of the Harvard Law School a five years with the law firm of Morgan, Lewis & Philadelphia, Pennsylvania. He is a former Lieuter United States Navy and, on active duty, was assig National Security Agency. He is a graduate of the Management Program of the Harvard Business S received his undergraduate degree with honors University of Wisconsin.

Mr. Philip S. Kaufmann was appointed to the Trustees in 2001. He received his B.S. fro University of Chicago and his Juris Doctor University of Akron. Mr. Kaufmann is the managi of the law firm of Kaufmann & Kaufmann. He is a practice in various state and federal courts, incl United States Tax Court and the United States Court. He is a Fellow of the American Colleg Estate Counsel, and is listed in the *Best Lawyers i* He is past Chairperson of the Board of Catholic C the Diocese of Cleveland; a member of the Trustees of The Village at St. Edward; a past mem Executive Committee of the Board of Trustee University of Akron Foundation; a member of the Trustees of the Community Fund Management F in Cleveland; a Trustee of the Summit County Society Trust Advisory Committee; a membe Salvation Army Advisory Board of Summit C member of the Blossom Music Center Board of C and a Trustee of the Catholic Diocese of Foundation. Mr. Kaufmann is a lifelong resident and he and his wife Patricia have one son Christop

Student Trustees

Cristina C. Pastore, from Girard, was appointed to the Board of Trustees (student representative) for a term ending July 1, 2003 replacing Stephanie LaGuardia, from Stow, whose term expired. Ms. Pastore is a fourth year student at The University of Akron, majoring in civil engineering. She is a member of The University Ambassadors and received the Scholarship for Excellence Award from The University of Akron. Ms. Pastore is currently doing her cooperative education with GPD Associates, an architectural-engineering firm in Akron.

Robert B. Preston III, from Cleveland, was appointed to the Board of Trustees (student representative) for a term ending July 1, 2004, replacing Meghan Markovich, whose term expired. Mr Preston is attending The University of Akron Law School. He is a sergeant for the Cleveland Police Department. Mr. Preston received his B.A. degree from Cleveland State University.

Section 1.12: The University of Akron Alumni Association Award

Alumni Honor Award

The University of Akron Alumni Association presents the Alumni Honor Award each year to alumni who have achieved distinction in their chosen fields or demonstrated loyal service and active interest in their Alma Mater.

The Alumni Honor Award was first presented in 1961. In 1988, The University of Akron Alumni Board of Directors officially renamed the award, honoring recipients in three distinct categories: Excellence in Professional Achievement, University Service, and Community Service. Today, all Alumni Honor Award recipients are listed equally as holders of the Alumni Honor Award for excellence in all of these categories. The Office of the Alumni Association accepts nominations for the award throughout the year.

1961
Paul D. Bagwell '37, deceased
Charles J. Jahant, Sr. '09, deceased
Harry P. Schrank '24, deceased
Joseph Thomas '15, deceased

1995	Jane L. Quine	L.H
	Morris L. Dees, Jr.	LL.
	Stanley C. Gault	L.H
1996	William H. Considine	L.H
	Justice Deborah L. Cook	H.
	Kathryn Motz Hunter	L.H
	Dr. Charles E. Taylor	L.H
	John D. Ong	L.H
1997	Dr. Angela Barron McBride	L.H
	Judge Karen Nelson Moore	LL.
	Dr. Richard E. Hoover	L.H
	Rainy Gates Stitzlein	L.H
	Dr. Joseph A. Steger	L.H
1998	Lt. Gen Richard T. Swope	L.H
	Justice Evelyn Lundberg Stratton	LL.
	Sandra Pianalto	L.H
	Joseph S. Kanfer	L.H
	Alex Machaskee	L.H
	D. Lee Tobler	L.H
1999	Justice Paul E. Pfeifer	LL.
	Howard L. Flood	L.H
2000	Raymond D. Meyo	L.H
2001	Clifford J. Isroff	L.H
	Barbara Lockhart	D.
	Alex R. Arshinkoff	L.H
2002	David E. "Gene" Waddell	L.H
	Henry "Hank" Nettling	L.H

Degree Abbreviations:

A.M.	Artium magister (Master of Arts)
D. Eng.	Doctor of Engineering
D. Engrg.	Doctor of Engineering
D.D.	Divinitatis Doctor (Doctor of Divinity)
D.FAA.	Doctor of Fine & Applied Arts
D. Mus.	Musicae Doctor (Doctor of Music)
D. Mus A	Doctor of Music Arts
D.P.S.	Doctor of Public Service
D.Sc. in Ed.	Doctor of Science in Education
D.S.N.	Doctor of Science in Nursing
H.D.L.D.	Juris Doctor of Laws
L.H.D.	Doctor of Humane Letters
Litt.D.	Litterarum Doctor (Doctor of Letters; D Literature)
LL.D.	Legum Doctor (Doctor of Laws)
M.S.	Magister Scientiae (Master of Science
Ph.D.	Philosophiae Doctor (Doctor of Philos
Sc.D.	Scientiae Doctor (Doctor of Science)

Outstanding Teacher Award

The Outstanding Teacher Award recognizes superior teachers at the University and provides encouragement and incentive for teaching achievement.

1974
Kriemhilde Livingston

1975
Andrew W. Maluke, Sr. '44
Orville R. Keister
Gerald H. Levin

1976
David C. Riede

1977
Theodore T. Duke '39

1978
George W. Knepper '48

1979
Julia Hull '46

1980
T. Neal Garland

1981
David L. Jamison

1982
Vincent P. Kopy

1983
Aloysius E. Misko

1984
Barbara N. Armstrong

1985
Isadore Newman

1986
Neal C. Raber

1987
Sunggyu Lee

1988
Jonathon S. Rakich

1989
Robert Pope, Jr.

1990
Lazarus W. Macior

1991
Tomasita M. Chandler
Alan Hart

1992
Walden B. Crabtree, Sr.
Richard J. Gigliotti

1993
Jim L. Jackson

Outstanding Teacher Award
Brian F. Pendleton

1994
Harry T. Chu '80
Gerald N. Young '81

1995
Larry G. Bradley
Richard L. Grant
Richard H. Haude

1996
Bill J. Frye
Sally K. Slocum

1997
Jerome Mushkat
George E. Prough

1998
Daniel L. Ely
Elizabeth S. Kinion

1999
Barbara E. Clements
Paul C. Lam

2000
Harold M. Foster
Richard J. Gross

2001
David H. Hoover
Rex D. Ramsier

2002
J. Thomas Dukes

Outstanding Researcher Award

The Outstanding Researcher Award recognizes exemplary research efforts that are original and/or creative, which have contributed to knowledge, and which are evidenced by publications and/or patents by a faculty member of The University of Akron.

1979
Joseph P. Kennedy

1980
H. James Harwood '52

1981
Daniel Nelson

1982
Nada Ledinko

1983
Paul Chang

1984
Alan Gent

Outstanding Researcher Award

1985
Allen G. Noble

1986
Joseph Padovan

1987
Gary R. Hamed '78

1988

Section 1.15: University Superlatives

The following facts are just some examples of the documented excellence that establishes The University of Akron as the leading public university in northern Ohio:

1.15.1 National Recognition

The University of Akron, the public research university for northern Ohio, is a world leader in creating new materials for the new economy; a national leader in the development, protection, management and commercialization of intellectual property; and a regional leader in information technology initiatives.

The University of Akron is classified by *U. S. News & World Report* as one of the 228 national universities in the United States. According to the magazine's 2002 rankings, The University of Akron is among only seven other Ohio universities that had any programs ranked in the top 25 nationally. What is more, The University of Akron is the only public university in Ohio to have a science and engineering program ranked in the top five in the nation. Akron's Polymer Science and Polymer Engineering program is ranked second in the United States, ahead of such highly regarded universities as M.I.T. and Caltech. Akron's program in Industrial/Organizational Psychology is ranked 8th nationally.

The University of Akron has one of only four Industrial/Organizational Psychology programs in the world ranked in the top 10 in all four of the recent rankings (Surrette, 2002).

A study released in 2002 by The Lombardi Program on Measuring University Performance, based at the University of Florida, examined American universities on 10 different measures of quality and ranked the top 100 public and private universities for each measure. The University of Akron was listed among the top 100 public universities on six measures – endowment assets (83rd), national academy members (82nd), annual giving (95th), doctorates awarded (73rd), postdoctoral appointees (94th), and national merit and achievement scholars (100th). In Ohio, only Case Western Reserve, Ohio State and Cincinnati were ranked among the top 100 on more measures, and in northeast Ohio, no other public university came close to The University of Akron's performance. The only other area university that appeared among the top 100 public universities did so in only one dimension!

The March 2002 issue of National Jurist magazine features The University of Akron School of Law in its cover story titled "Best School for your Money." UA received 2.9 out of 3.0 points, the highest rating of any law school in the country, public or private, giving it a "Best Value" rating. The only other Ohio school ranked — Case Western Reserve University — received a "Great Value" ranking under the category of private schools. The magazine ranked schools on tuition, bar pass rates, employment rates, median grants, clinic slots and faculty-student ratio.

The University of Akron's School of Law is the third most selective of all Ohio law schools, admitting only 46.7 percent of applicants.

The National Institute for Trial Advocacy ranked University of Akron trial teams fifth in the nation in the three-year ranking for 1999-2000 and categorized them among the "best of the best" champions. In 2001, for the 13th year in a row, Akron's trial program was named as one of the top 16 programs in the nation by the institute. The team was national runner-up in the N.I.T.A. Tournament of Champions.

The University of Akron was identified as having one of the five best graduate sales programs in the country by Sales and Marketing Management magazine in its August 2001 issue. Others on the list include Baylor University and Stanford University. Akron is one of only three schools in the United States to offer a bachelor's degree in sales.

Gamma Kappa, the UA Chapter of Pi Sigma Epsilon — the national professional fraternity in marketing, sales management, and selling — has ranked in the top eight nationally every year since 1987.

The University's School of Dance, Theatre, and Arts Administration was listed among the top 28 "most sought after dance programs in the country" in the September 1999 issue of Dance Spirit magazine. The school has a large undergraduate dance program that alternates with Ohio State's as the largest program in Ohio. Its resident company is the nationally acclaimed Ohio Ballet.

The University of Akron dance program was selected in 2001 as the Ohio recipient of the National College Choreography Initiative. Only one college or university is selected from each of the 50 states for this newly created innovative program, which awards $10,000 to each school.

The University of Akron College of Nursing has the nation's best undergraduate curriculum for gerontological nursing, according to The American Association of Colleges of Nursing and the John A. Hartford Institute for Geriatric Nursing. The organizations named Akron as the 1999 recipient of the Award for Exceptional Curriculum Content in Gerontological Nursing. In announcing the award, the AACN said the college's "undergraduate curriculum gerontology initiative demonstrates exceptional innovation, relevance and replicability." The AACN has published the college's curriculum as a model for other nursing programs to follow. In November 2001, the College of Nursing established a Center for Gerontological Health Nursing and Advocacy.

Campus Activities Magazine selected The University of Akron the "Best Campus Program Board" in the United States in 2003. The University was one of five national semifinalists for this prestigious award and it is the second time since 2000 that the magazine has selected UA for this exceptional honor.

The Association for the Promotion of Campus Activities selected The University of Akron as a 2003 recipient of its "National Programming Event of the Year" award. The University was honored for its "Adopt-A-School" program, which brings together student members of the University's National Residence Hall Honorary Chapter and an Akron-area elementary school for a series of educational programs. The Association named The University of Akron Residence Hall Program Board as the "2002 Program Board of the Year."

Photographer Andrew Borowiec, a professor at the Mary Schiller Myers School of Art, was awarded a 1998 Guggenheim Fellowship, which is considered to be one of the most distinguished awards in the country. Other University of Akron recipients of this honor are Constance Bouchard, professor of history, who won in 1994; and Wayne Mattice, the Alex Schulman Professor of Polymer Science, who won a Guggenheim in 1976.

The Archives of the History of American Psychology, housed at The University of Akron, was accepted into the prestigious Smithsonian Institution Affiliations program in 2002. The Psychology Archives, which is the largest and most famous resource of its kind in the world, is the first archive in the nation to be granted affiliate status. The UA facility's holdings include collections from more than 700 psychologists; records of more than 100 psychological journals and organizations; 153 miles of child development film plus 250 additional reels of file; 3,000 rare photographs; 5,000 test cards, blanks, and manuals; 3,000 rare and antiquarian books in psychology, philosophy, and science; and approximately 700 pieces of psychological apparatus, such as B.F. Skinner's first teaching machine, Stanley Milgrim's "shock" machine, and brass instruments from 19th century psychology laboratories.

The Ray C. Bliss Institute of Applied Politics is one of the nation's premier centers of research and instruction on the "nuts and bolts" of applied politics. The University of Akron is one of only five institutions in the United States that offers such a program. Many former interns occupy leadership positions in politics and government around the country. For example, Bliss graduates managed the Ohio campaigns of George W. Bush and Al Gore in the 2000 presidential race.

Wayne College is the second most wired two-year institution in the country, according to the May 2000 issue of Yahoo Internet Life magazine.

1.15.2 Discovery and Innovation

The National Science Foundation has ranked The University of Akron 12th in the nation among institutions graduating students with Ph.D. degrees in chemistry. Akron also ranks among the top 50 institutions doing chemical research in terms of research and development spending. (The rankings are based on NSF tabulations, which combine chemistry and polymer science.)

The University of Akron is ranked second in the world for the number of patents produced per $10 million in total research funding, according to an international survey of higher learning institutions conducted by the Association of University Technology Managers. In Ohio, The University of Akron today has the second-largest intellectual property portfolio among public universities, and relative to its inputs, the most productive by far, according to a 1995 study by Dr. Gary Garafolo.

The University of Akron is the nation's largest single center of polymer education. It serves more than 300 graduate students in the College of Polymer Science and Polymer Engineering. The University also offers noncredit training in plastics processing and testing, a two-year degree program in polymer technology, undergraduate polymer specializations in chemistry and chemical engineering, and an undergraduate degree program in mechanical polymer engineering. These varied programs serve an industrial cluster that accounts for nearly one quarter of Ohio's manufacturing output.

Faculty in the College of Polymer Science and Polymer Engineering include winners of the highest international honors bestowed for achievement in the polymer field, including the Charles Goodyear Medal from the Rubber Division of the American Chemical Society, the Chemical Institute of Canada's Dunlop Medal, the Morely Medal from the American Chemical Society, the Colwyn Medal from the Plastic and Rubber Institute of Great Britain, the Bingham Medal from the Society of Rheology, and the Ford Prize in High Polymer Physics.

The Community and Technical College's two-year Polymer Technology program was Ohio's first degree program focusing exclusively on the plastics and polymer processing industries.

Through its departments of chemistry, polymer science and physics, the University houses one of Ohio's largest concentrations of advanced Nuclear Magnetic Resonance instrumentation.

The Molecular Spectroscopy Laboratory, operated by the Department of Chemistry, is one of the best-equipped and most productive laboratories of its kind in the state. The department's Unityplus 750 MHz NMR instrument is one of only two of its type in the world that has accessories geared for polymer research. The equipment enables the Department of Chemistry to assist the research efforts of more than 40 local, national and international companies.

The Applied Mathematics Scientific Computation Laboratory is a duplicate of a laboratory at NASA's Glenn Research Center in Cleveland. The laboratory offers undergraduate and graduate students, along with doctoral engineering and applied mathematics students, an opportunity to conduct mathematical modeling and computation in material science and crystal growth.

The University of Akron hosts the world's longest-running and largest annual symposium on tire mechanics. Each July, representatives of tire companies from Asia, Europe and North America attend this gathering.

In April 2001, just as the complete mapping of the human genome was being announced, The University of Akron hosted "2001: The Human Genome Odyssey Conference." Leading experts from around the world in the fields of medicine, the humanities and sciences, law and business convened in Akron to present findings and discuss the issues raised by the most significant scientific advance of the 21st century.

The University of Akron is one of the nation's pioneers in distance learning, a high-tech way to bring together students and teachers located in different cities. The new system connects University of Akron instructors through a two-way fiber-optic network to classrooms at Wayne College and every high school and the Career Center in fast-growing Medina County. Students of all ages can now take a variety of multimedia college courses at these locations, and interact with their peers and instructors, without traveling to our central campus.

1.15.3 Economic Development

In 2002, University of Akron Professor Aigbe Akhigbe was ranked 56th out of 1,000 finance professors based upon their publication history, from 1990-2000, in the 16 core finance journals. Akhigbe was placed in the top 5 to 6 percent of finance authors in an article titled "Production in the Finance Literature, Institutional Reputation, and Labor Mobility in Academia: a Global Perspective," written for the journal, Financial Management. Akhigbe has held the Frederick W. Moyer Chair in Finance at UA since 2000.

The College of Business Administration is among the top 10.5 percent of business schools in North America to earn all four levels of accreditation from the American Academy of Collegiate Schools of Business — undergraduate and graduate business, plus undergraduate and graduate accounting.

The College of Business Administration Career Center is one of only 67 programs nationwide to receive alumni support grant awards from the Ewing M. Kauffman Center for Entrepreneurial Leadership. The center has won support grants from the foundation in each of the past six years.

The University of Akron has the only bachelor's level Automated Manufacturing Engineering Technology Program in northeast Ohio. The region's dependence on manufacturing and its importance to manufacturing is illustrated by the fact that Ohio led the nation for three years during the last decade in terms of new manufacturing plants and manufacturing plant expansions.

The University of Akron's finance curriculum is one of only three university programs in northern Ohio approved as the educational component for students planning to sit for the Certified Financial Planner certification examination (as of March 2001).

The College of Engineering's Cooperative Education Program is the fifth oldest in the nation, according to the American Society of Engineering Education/Cooperative Education Division. It serves 540 students and 100 companies in 21 states.

The University's School of Law offers the only joint graduate program in law and taxation in northeast Ohio, jointly offering the degree with the College of Business Administration.

The Intellectual Property and Technology Center in the School of Law is one of approximately 14 such centers in the nation.

The School of Law also hosts one of only four constitutional law centers established by the U.S. Congress and The Joseph G. Miller Institute of Professional Responsibility, a leader in the state.

Wayne College is the only authorized credit site for Novell certification in the state of Ohio. Students can simultaneously qualify for Novell's Certified Network Administrator and Certified Network Engineer certifications.

In 2001, the Ohio Continuing Higher Education Association gave a "Program Excellence" award to Wayne College's cooperative education program at the Gerstenslager Company in Wooster.

Wayne College is one of only 10 pilot sites for the Ohio Board of Regents' newly initiated SkillsMax centers.

1.15.4 Community Well Being

The University of Akron offers the only accredited Emergency Management Degree Program in the United States.

In February 2001, the Institute for Health and Social Policy was awarded the University's largest grant to date — $13.7 million from the Robert Wood Johnson Foundation, based in Princeton, N.J, — to undertake research focused on the D.A.R.E. program, a drug education program for seventh through ninth grades.

In 2002, the Council on Social Work Education recognized The University of Akron's distance-education joint master's degree program in social work as "a national model not just for social work, but for other forms of professional education."

The Decker Family Development Center, a collaborative effort started in 1990 involving The University of Akron's College of Education and the Buchtel College of Arts and Sciences, Children's Hospital Medical Center of Akron and Barberton City Schools, is recognized as a national model for the coordination of early intervention services. The center has earned numerous national and state awards, including the 2000 Ohio BEST Practice Award for Breakthrough Programs and the 1998 Exemplary Programming for Children and Families by the National Organization of Social Workers.

The University of Akron, as a partner in the Northeastern Ohio Universities College of Medicine consortium, offers a program that can take a high school senior all the way to a combined B.S./M.D. degree in just six years. Students take formation coursework at The University of Akron, then move to the medical school campus or one of 16 associated teaching hospitals in the area for advanced courses and clinical preparation. NEOUCOM graduates more than 100 physicians a year, and more than half enter a primary care specialty right here in Ohio.

The Audiology and Speech Center is a training facility for students. Working under the guidance of faculty, students provide assessment and treatment services for more than 1,000 clients each year, including children with speech, language and hearing disorders. The University of Akron and the University of North Carolina are the only two university training centers in the country providing auditory-verbal clinics for children with severe hearing impairments. The center also services adults, including those who have acquired head traumas; persons who cannot speak and require technology to express themselves; and elderly persons with hearing losses. Its fully endowed and privately funded Assistive Listening Device Lab, where individuals with hearing loss are introduced to numerous new forms of listening technology, is the only lab of its kind in Ohio.

The University of Akron is the only university in Ohio that is accredited at the master's and doctoral level by the American Association for Marriage and Family Therapy.

The Surveying and Mapping Technology program is Ohio's only degree program focused exclusively on land surveying. It is one of only 14 four-year degree programs in the nation, according to the American Congress on Surveying and Mapping. Akron's surveying curriculum is one of only three university programs in Ohio approved as meeting the education requirements for students planning to take the professional licensure examination.

The University of Akron continues to be a major feeder for school leadership in Ohio. At last count, 33 incumbent superintendents earned their superintendent's certification from the College of Education.

Following an intense nationwide competition, The University of Akron was selected as the new institutional host for the prestigious American Psychological Association's Division 17 Student Affiliate group through 2004.

The Speech Pathology program in The University of Akron's School of Speech-Language Pathology and Audiology is one of the most selective in Ohio. The program admits only 20 students per year out of 200 applicants. Those graduating from the master's program boast a 95 percent pass rate on their National Certification Exams. In 2001, the school became a partner with Kent State University to offer the nation's first joint program leading to a Doctor of Audiology degree.

Among the University's scholarships are the Jim and Vanita Oelschlager Leadership Awards, established in mid-2000 with a $10 million gift from the couple — the largest gift in the University's history. This innovative scholarship program provides students with unprecedented access to higher education at The University of Akron or at other fine universities across the country and abroad. The scholarships are focused on the long-term potential of talented students who have demonstrated leadership, scholarship and service. Awards range from $1,000 to $11,500 annually.

The Department of Counseling in the College of Education houses the Alpha Upsilon Chapter of Chi Sigma Iota (an international counseling honor society with more than 215 chapters worldwide). The UA chapter has been received five international awards of excellence during the past four years — the 2000 International Outstanding Doctoral Student Award, the 2001 International Outstanding Master's Student Award, the 2001 International Outstanding Doctoral Student Award and the 2002 International Outstanding Individual Program Award. It is the first time in Chi Sigma Iota's history that one chapter has won the doctoral award of excellence two years in a row. It also is the first time in the society's history that one chapter has won both the master's and doctoral awards of excellence in the same year.

Since 1986, the Clinic for Child Study and Family Therapy in the Department of Counseling has served the mental health needs of the Akron area. Between 700 and 800 clients are treated annually, many of them referred by churches, medical professionals, courts, schools and mental health providers throughout Northeast Ohio.

In fall 2001, Wayne College's Developmental Education program was named "Program of the Year" in Ohio by the Ohio Association of Developmental Education.

1.15.5 Cultural Enrichment

E.J. Thomas Performing Arts Hall attracts more than 400,000 patrons annually. This flagship performance venue features world-renowned artists as well as college productions. Staff members from the hall are active in the operation of the Civic Theatre, an Akron landmark seen as a key to the revitalization of the downtown area. Almost every day, events and performances draw patrons to campus and reach into the community at off-campus venues. The School of Music, for example, presents more than 350 concerts and recitals each year.

Design x Nine *(pronounced "Design by Nine")* in the Mary Schiller Myers School of Art, an in-house studio for selected senior graphic arts students, is a quasi-commercial venture that allows outstanding artists and designers to work on Institutional Marketing and projects for area advertising agencies. The studio has won numerous regional "Addys," which are the industry's equivalent to Oscar and Emmy awards for the best work of the year.

School of Music Director Dr. William Guegold was presented with the Olympic Order Award at the 2000 Olympic Games in Sydney, Australia. Guegold earned the International Olympic Committee's highest noncompetitive honor in recognition of his scholarly work on the history of Olympic music.

The University of Akron School of Music consistently achieves a 100 percent placement rate by its graduates who choose to become music teachers. UA music graduates are teaching in at least 18 states. Among the more than 1,100 member schools of the National Association of Schools of Music, The University of Akron is one of the top 50 schools in terms of enrollment.

1.15.6 Student Success

School of Law graduates finished first in Ohio on the February 2002 state bar exam. UA had an 86 percent pass rate for first-time takers, while the state pass rate was 67 percent. For all those taking the exam, UA had a 73 percent pass rate, while the state's overall pass rate was 52 percent. The school with the next highest overall pass rate ranked at 59 percent.

Among the law school's alumni are nearly 130 federal and state judges in Ohio, Pennsylvania, Wisconsin, Michigan, New Jersey, New York, Idaho, Florida, Georgia, Oregon, Texas, Colorado and the District of Columbia.

Mary Lavery, a December 2001 graduate in accounting, won the 2002 American Accounting Association-Ohio Region Student Manuscript Award. The prestigious award honored Lavery for authoring the best undergraduate student manuscript among all her peers at Ohio institutions offering undergraduate accounting programs. Her manuscript, titled "Securities & Exchange Commission's June 2000 Proposal to Modernize the Rule on Auditor Independence: A Solution to the Controversy over Auditor Independence?" was published in the proceedings of the 2002 Ohio Regional Conference of the American Accounting Association.

Three University of Akron graphic design students won top honors in the 2002 National Paperbox Association's student design competition. Gold medals went to Joe Galbreath for his folding carton design and Candace Gustine for her rigid box design, while Joel Morrison won a bronze medal for his rigid box design.

Telly Awards for Best Documentary in 2002 were won by students in The University of Akron School of Communication and their instructor. Two television programs they produced, "Floating on Air" and "A Simple Life," took first and second place in the national competition. The Telly Awards recognize outstanding non-network and cable commercials as well as film and video productions.

Four University of Akron student athletes were named in spring 2002 to the Arthur Ashe Jr. Sports Scholars list, presented annually by Black Issues in Higher Education magazine to undergraduate students of color who exemplify academic excellence and community activism in addition to athletic ability. First-team honorees are tennis player Ariana Rojas-Serpa and basketball team member Felecia Bell. Second-team honorees are football players Rickey McKenzie and Jesse Smith. The magazine established the Sports Scholar Award in 1992. To be included, student-athletes have to maintain a cumulative GPA of at least 3.2 and be active on their campuses or in their communities.

University of Akron School of Music voice graduates Nicole Heaston and George Cordes sang lead roles with the acclaimed New York Opera in the "Live from Lincoln Center" PBS broadcast of Puccini's "La Boheme" on March 28, 2001.

A team of University of Akron entrepreneurship students placed eighth in the world at the prestigious San Diego State University's 2001 International Business Plan Competition. The students' plan made the UA team one of 20 semifinalists from all over the world. Fifteen of the 20 semifinalists were already preselected from other competitions. Therefore, The University of Akron's team was one of five selected from a worldwide pool.

The University of Akron Child Life Program is one of only 32 in the nation, and one of only 14 programs that grant both B.A. and M.A. degrees. The Child Life Council, a national professional organization, began a professional examination three years ago as part of the requirement for becoming a Certified Child Life Specialist. As of 2001, the national pass rate is in the high 70s, while 100 percent of the recent UA graduates who have taken the exam have passed. Additionally, graduate enrollment in the program has tripled during the past three years.

The University of Akron placed 41 student-athletes in the sports of cross country, volleyball, football and soccer on the Mid-American Conference Academic Honor Roll as announced by the conference office on Jan. 9, 2002. UA's football squad led the way with 18 honorees, the most among MAC schools. Men's soccer and women's volleyball each placed eight student-athletes on the list, followed by three from women's cross country and two each from the men's cross country and women's soccer teams. In addition to the MAC Honor Roll, 110 UA student-athletes (31.1 percent of total student-athletes) earned Dean's List honors for the Fall 2001 semester. Fourteen finished the semester with a perfect 4.0 GPA.

WZIP-FM radio station is a 24-hour a day learning laboratory in the School of Communication that features popular music, news, sports and community information. According to the Arbitron rating service, approximately 150,000 people listen to WZIP every week, making it one of the highest-rated, student-operated radio stations in the country.

A team of six University of Akron chemical engineering students won first place in the first National Chem-E-Car Competition sponsored by General Mills at the American Institute of Chemical Engineers Annual Student Conference in Los Angeles on Nov. 12, 2000.

The University of Akron's Society of Automotive Engineers has won more SAE design competitions in the 1990s than SAE teams from all other Ohio universities and colleges combined. Officials for SAE — a professional engineering society with 75,000 members in 97 countries — have hailed Akron's success as unprecedented in the organization's 94-year history.

The American Society of Mechanical Engineers ranked The University of Akron student chapter number one in the nation in the organization's Allied-Signal competition. The contest evaluates the performance of ASME student chapters during a 12-month period, assigning points for such activities as community involvement, publications, organizing industrial tours, and the like. In 1998, the Akron chapter posted its 11th consecutive perfect score in the Allied-Signal contest.

For the 10th consecutive year, the Biomedical Engineering Society has awarded its Meritorious Achievement Award to The University of Akron's student chapter. Fewer than six chapters receive the Meritorious Achievement Award each year, yet Akron has earned the award every year since the award was established.

Since the fall of 1997, Zip student-athletes have been recognized as All-Americans 20 times in nine different sports, including three athletes earning Academic All-America notice four times.

Nate Schindewolf, senior captain and leading scorer of the 2001 men's basketball team, earned recognition on the Verizon Academic All-America Men's Basketball Team as selected by the College Sports Information Directors of America. It marked the 15th time a University of Akron student-athlete has been honored as an Academic All-American by CoSIDA.

During the last four years, 153 UA student-athletes have been named Academic All MAC. The Zip football team led the conference with 10 selections in 1998.

Since 1994, student members of Business Professionals of America at Wayne College have received six first-place, two second-place, and three third-place awards at the National Leadership Conference competitions. Wayne College students also placed as top 10 finalists in 21 national contests.

Since 1998, 138 area teachers who completed the College of Education's preparation program have earned the rigorous National Board Certification. In the first three years of the program, the performance of UA candidates has exceeded the national pass rate every time.

In an unprecedented accomplishment, University of Akron students won both international student awards for 2001 given by Chi Sigma Iota, the international honorary for counselor education. David Marsteller received the 2001 International Outstanding Master's Level Student Award, and Rebecca Newgent was awarded the 2001 International Outstanding Doctoral Student Award. This also marks the first time an institution has won the doctoral award two years in a row, as Akron's Jeannette Higgins won the International Outstanding Doctoral Student Award in 2000.

Dietetics graduates have passed their national registration exams with flying colors in the past five years, far exceeding the national averages. Graduates of the Coordinated Program in Dietetics have achieved a 94 percent average pass rate, while graduates of the Didactic Program have achieved a 96 percent rate. The national averages are 76 percent and 83 percent, respectively. Both UA programs are accredited by the American Dietetics Association.

Karen Ziemba, a 1979 dance graduate, won the 2000 Tony Award as "best featured actress in a musical" for starring on Broadway in "Contact." She had an earlier Tony nomination for "Steel Pier," and, in 1998, Ziemba was featured in Newsweek as a "Rookie of the Year" in the arts.

Sandra Pianalto was appointed president of the Federal Reserve Bank of Cleveland on December 12, 2002. Pianalto, who earned a bachelor's degree in economics at The University of Akron in 1976, had served as first vice president and chief operating officer of the bank since 1993.

Section 1.16: Research Centers and Institutes

Akron Global Polymer Academy
R. Byron Pipes. Ph.D., Director

As a world leader in polymer research and education, The University of Akron's College of Polymer Science and Polymer Engineering use the Akron Global Polymer Academy for synchronous and asynchronous distance learning to support K-12 science instruction, global research collaboration, internet instrument sharing, virtual laboratories, graduate education, and workforce development.

Ray C. Bliss Institute of Applied Politics
John C. Green, Ph.D., Director

The Ray C. Bliss Institute of Applied Politics is a public education and research adjunct of Buchtel College of Arts and Sciences. The broad purposes of the institute, in keeping with the career of its namesake, Ray C. Bliss are: to give all citizens, and particularly students, an opportunity to learn how to become active and competent in political life; to help maintain a tradition of ethical public service in politics; to foster useful relationships between applied politics and political science; to promote public comprehension of political organizations and the requirements for their effectiveness; and to improve understanding of continuity and change in American political institutions.

Institute for Biomedical Engineering Research
Daniel B. Sheffer, Ph.D., Interim Director

This institute was established in 1979 to promote interdisciplinary studies in the rapidly growing areas of knowledge that overlap the fields of biology and medicine, on the one hand, and engineering and the physical sciences, on the other. It conducts seminars, courses and degree programs in biomedical engineering in association with the College of Engineering and individual departments.

In addition to its research and educational functions, the institute provides a research service to local hospitals and industry, as well as to private and government agencies. The premise for this program is that the combined resources of the University, Northeastern Ohio Universities College of Medicine and affiliated organizations will often permit more cost-effective solutions than would be possible by an individual or group doing the research independently.

The work of the institute is carried out by faculty of the Department of Biomedical Engineering in association with "members" selected from the faculties of The University of Akron and Northeastern Ohio Universities College of Medicine, as well as from the ranks of area physicians, engineers and scientists. The institute and the department occupy the third floor of the Olson Research Center on the north edge of the campus.

Center for Applied Polymer Research
Robert H. Seiple, M.S., Manager

Operating under the Institute of Polymer Science, the Applied Polymer Research Center (APRC) provides technical services to thousands of companies. Industrial clients of all sizes gain access to top researchers, knowledge bases, and advanced equipment. With a full-time professional staff, the APRC is dedicated to providing timely and reliable contractual technical services for industrial and government clients. Key areas of technical service include: polymer characterization, additive identification, defect analysis, dynamic mechanical thermal analysis (RPA, DMTA), electron microscopy (STEM, TEM, SEM, AFM), chromatography and spectroscopy.

Center for Collaboration and Inquiry
David A. McConnell, Ph.D, Director

Operated jointly by the Buchtel College of Arts and Sciences and the College of Education, the Center for Collaboration and Inquiry was created in 2002 to promote the practice, research and dissemination of inquiry-based teaching and learning. The Center supplies the resources and assistance necessary for K-16 teachers to create effective learning environments and fosters collaborative research efforts between experts of both content and educational methods.

Center for Conflict Management
William M. Lyons Jr., Ph.D., Director

The University of Akron has a long and proud history of the interdisciplinary study of conflict because understanding the nature of conflict is the first step toward reducing conflict and violence at home, in our communities, workplaces, and schools. The Center for Conflict Management, jointly administered by the departments of Political Science and Sociology, seeks to build on that tradition by combining courses in several departments to enhance the capacity of students to effectively work toward reducing the harms associated with conflict and violence—from interpersonal to international.

H. Kenneth Barker Center for Economic Education
Fred M. Carr, Ph.D., Director

The center exists to improve the economic literacy of individuals to help them function competently as citizens, producers and consumers.

The center conducts workshops, seminars and economic programs for teachers, students and interested groups. It provides consulting services in the area of economic education and acts as a clearinghouse for the gathering and dissemination of economic education materials and programs. It also fosters an understanding and appreciation of the American economic system.

Center for Environmental Studies
Ira D. Sasowsky, Ph.D., Director

The Center for Environmental Studies matches the expertise of 95 affiliates in 33 disciplines with the needs of students seeking study and research opportunities in complex environmental issues. Since its founding in 1970, the center has sponsored, or in other ways supported, activities appropriate to the goal of attaining a quality environment for mankind.

The center coordinates special forums, workshops and seminars that address major issues. Examples include the National Energy Forum, the World Food Forum and Evaluation of Environmental Data. Workshops on energy, natural history and environmental studies in England also emphasize the interdisciplinary approach to the resolution of issues.

Center for Family Business
Susan C. Hanlon, D.B.A., Director

The Center for Family Business provides non-credit educational programs designed to help business owners address problems unique to family enterprises. The center seeks to increase the survival rate of family-owned businesses by focusing on the special challenges inherent in multigenerational family enterprises.

Center for Family Studies
Helen K. Cleminshaw, Ph.D., Director

The Center for Family Studies, established in 1979, was designed to stimulate and encourage the interdisciplinary study of the family. It serves both the University and the community by fostering collaboration among faculty, students, practitioners and community leaders on curriculum development, educational conferences and seminars, research and training, and public policy relevant to important family issues.

The Center is represented by faculty from five colleges and over 15 disciplines. It also includes leaders from various community systems, such as schools, hospitals, courts, churches, mental health, social and health care agencies. In addition, the center has a fellows program in which outstanding faculty and community leaders are named as either fellows, adjunct fellows or senior fellows.

The center offers certificates in the following specialty areas: conflict management, case management, divorce mediation and home-based intervention. Any student, faculty member or community person interested in family issues is invited to call the director to learn how they can participate or learn more about the center's activities.

Center for Gerontological Health Nursing and Advocacy
Victoria M. Schirm, Ph.D., R.N., C.S., Director

The mission of the Center for Gerontological Health Nursing and Advocacy is to advance knowledge about appropriate and effective health promotion/interventions for elders. The Gerontology Center has a tripartite focus of education, research and service to improve the health care and quality of life for elders. Activities of the Center include interdisciplinary research within the university and health care communities, best practices development for care of older adults in institutional and community settings, and education initiatives to prepare health care professionals in the delivery of elder care. The Gerontology Center is part of the University of Akron's College of Nursing.

Center for Literacy
Evangeline Newton, Ph.D., Director

The Center for Literacy, established in 2001, is an interdisciplinary research and service unit housed in the College of Education. Broadly defined, literacy refers to basic communication and calculation skills required for existing in a modern society. Literacy requires integration of a complex set of skills, abilities, and knowledge. The Center supports literacy development of children and adults through courses and workshops, teacher professional development, research and scholarship, and service projects that assist in this integrative process.

Center for Nursing
Elizabeth Kinion, Ed.D., R.N., C.N.P., Director

The Center for Nursing is a part of The University of Akron's College of Nursing. It is an education and practice center for College of Nursing faculty and students as well as faculty and students from other health care disciplines on campus.

Since 1981, the Center for Nursing has provided wellness services to campus students, faculty and staff as well as outreach services to community residents of all ages. Services include health assessments and nursing physicals, stress management and self-care assistance, family and group education and support sessions. Community outreach to vulnerable populations is a major emphasis of the center.

Center for Organizational Development
Sebastian Vaduva, Interim Director

The Center for Organizational Development in the College of Business Administration was established to meet the training and development needs of the business community. The center offers management development seminars, programs, conferences and consulting services designed to enhance the skills of individuals and improve company productivity in a rapidly changing world. The Center specializes in offering dedicated leadership training and management development programs that are custom designed to meet the specific needs of companies.

Center for Organizational Research
Dennis Doverspike, Ph.D., Director

The Center for Organizational Research (COR) is a business research and consulting center managed by the Industrial/Organizational Psychology Department at The University of Akron. The Industrial/Organizational Psychology Department at The University of Akron consistently ranks as one of the top ten programs in the nation (according to *U.S. News & World Report*). As such, COR is in an excellent position to provide top quality consultation and research-based interventions to the business community.

The COR also serves the purpose of providing professional training and research opportunities for graduate and undergraduate students. The COR is able to provide a tailored approach to the client's needs because of its smaller client base and research orientation. COR offers larger organizational access to solutions based on cutting-edge research from a nationally regarded academic program.

Center for Policy Studies
Jesse F. Marquette, Ph.D., Director

The Center for Policy Studies is an associated center of the Institute for Health and Social Policy.

The Center houses The University of Akron survey research unit, with responsibility for external grant and contract research, research support for the Urban University linkage program, sponsored research for faculty and internal University surveys. Geographic scope of work for center projects extends from local jurisdictions through state, national and international projects. Most of the work conducted at the center is on behalf of government or nonprofit agencies or grant-funded subcontracts for faculty researchers. Center professional staff is available for consultation in the development of grant proposals and budgets.

The Center has responsibility for the administration of the Board of Regents Urban University Program (UUP) which links eight state universities to collaborate on the identification of significant urban problems and propose solutions designed to improve the urban regions of Ohio. The University of Akron Urban University Program, in addition to the collaborative mission of the Ohio UUP, encourages community-oriented research and policy analysis through the Partnership Grant Program. The Center also houses a State Data Center under the auspices of the Ohio Department of Development to provide Census and other data to appropriate agencies and coordinate geographic information system activities with the Department of Geography and Planning.

Center for Public Service Research and Training

Peter J. Leahy, Ph.D., Director

The Center for Public Service Research and Training (CPSRT), newly established in 2002, is a division of the Institute for Health and Social Policy (IHSP), a multi-purpose research institute of The University of Akron. CPSRT evolved from the Center for Urban Studies, established at The University of Akron in 1967. CPSRT's mission is to assist the local and regional community in policy analysis and evaluation, applied research, professional service and the resolution of social, economic and public management problems. CPSRT offers its services to governments of all levels, to community foundations, to human service agencies and to community organizations. Particular expertise is available in program evaluation and program improvement strategies, strategic program planning, strategic management, community needs assessment, community planning and the conceptualization and design of research projects.

CPSRT draws upon the full range of senior research associates, professional staff and related research centers available in the IHSP, as well as upon faculty and doctoral students from the Department of Public Administration and Urban Studies. In tandem with the Center for Policy Studies (CPS), another division of the IHSP, CPSRT also offers clients a state of the art computer assisted telephone interviewing (CATI) facility, a state of the art focus group room and GIS mapping services. The Center for Public Service Research and Training also plans to offer workshops and professional training on a regular basis.

Center for Statistical Consulting

Chand Midha, Ph.D., Director

The mission of the Center for Statistical Consulting in the Department of Statistics is to provide the university community and the community at large with professional assistance in the design and analysis of statistical problems. The office, located in the College of Arts and Sciences Building, is open for consultation by appointment.

Center for Urban and Higher Education

Sharon D. Kruse, Ph.D., Director

The Center for Urban and Higher Education is a public education and research unit within the College of Education with the broad purpose of improving student achievement pre-K through higher education. It serves both the University and the community by fostering collaboration among faculty, students, practitioners, and community leaders in educational conferences and seminars, research, evaluation, and training.

Center for Workforce Development and Training

Daniel L. Hickey, Interim Director

The Center for Workforce Development and Training is a member of The Enterprise Ohio Network, an association of two-year campuses that provide educational and training programs for businesses and public sector organizations throughout the state. The Center offers customized and subsidized training in the areas of information technology, skill builders, business, management/supervision, Six Sigma/Quality, technical and employee safety/health.

English Language Institute

Debra L. Deane, M.A., Director

Established in 1979, the English Language Institute (ELI), part of the Buchtel College of Arts and Sciences, provides non-credit academic English as a Second Language (ESL) instruction to international students and non-native residents who plan to pursue an undergraduate or graduate degree at The University of Akron or another U.S. university. The intensive, 20-hour-per-week English program also serves students who wish to improve their English to meet their own professional and/or personal goals.

ELI courses at four levels of English proficiency target language and academic skills needed for successful study at a U.S. university: reading efficiently, writing clearly, taking lecture notes and communicating effectively with people on and off campus. Students also study grammar and vocabulary and prepare for the TOEFL test of English language proficiency, which is required for admission to the University. In addition, students receive a wide variety of support services designed to facilitate their transition to life and study in the United States.

The ELI serves as a resource on issues relating to language proficiency not only for University faculty, staff and students but also for members of the local community. ELI faculty can provide workshops and specialized courses to help UA departments and external institutions meet the needs of their international students. The ELI can also provide information on the Test of Spoken English (TSE) required for graduate teaching assistants.

Fisher Institute for Professional Selling

Jon M. Hawes, Ph.D., Director

The Fisher Institute for Professional Selling was founded in 1994. Its mission is to enhance the image of the sales profession, to promote professional selling and sales management as rewarding lifetime careers, to provide high quality sales training and learning experiences, and to advance the knowledge of professional selling through the support of applied research.

William T. and Rita Fitzgerald Institute for Entrepreneurial Studies

James W. Barnett, B.B.A., Interim Director

In 1995, a generous gift from William and Rita Fitzgerald created the Fitzgerald Institute for Entrepreneurial Studies in the College of Business Administration. The institute was established to promote the principles of free enterprise and encourage entrepreneurial spirit and practices both within the University's curriculum and throughout the business community.

The Fitzgerald Institute focuses on the development of curriculum appropriate for both new ventures and the entrepreneurial development and growth of existing businesses. The institute provides the needed link between the University and the community of entrepreneurs critical to business development in the future.

Institute for Global Business

James W. Barnett, B.B.A., Director

The University of Akron received special funding from the State of Ohio to expand its offerings of undergraduate and graduate degree programming in international business. Thus, the College of Business Administration created the Institute for Global Business, which coordinates both credit and noncredit programming in international business. The institute also offers an international executive MBA and also develops short courses and seminars designed to help improve the international competitiveness of area business.

Institute for Health and Social Policy
Richard C. Stephens, Ph.D., Director

The Institute for Health and Social Policy, located on the fifth floor of the Polsky Building, was established in February 1999 for study of the delivery of effective health and social services. The mission, objectives and research continuum are defined as follows:

Mission
To improve the quality of services to specific target groups most at risk of health and social consequences in order to decrease morbidity and mortality and the burden of health and social problems on the community and individuals.

Objectives

- Conduct research appropriate to the mission
- Collaborate with units on campus
- Assist faculty in the development of development of proposals

Research Continuum

- Epidemiology
- Intervention Development
- Service delivery
- Technology transfer
- Policy

Most of the work conducted by the Institute is on behalf of government or non-profit agencies. Faculty and students have the opportunity to collaborate on research and evaluation projects of national significance.

The Institute also serves as an educational resource for students and the community for the most up-to-date social and health services research available and the latest advances in behavioral and social science research technologies.

Institute for Teaching and Learning
Thomas A. Angelo, Ed.D., Director

The Institute for Teaching and Learning promotes, coordinates, and supports faculty efforts to improve, assess, and document teaching effectiveness and student learning quality by consulting with colleges, departments, and individual faculty on teaching, learning, evaluation, and assessment issues.

The Institute began as the Carnegie Teaching Academy in 1999. budgeted activities for a center began in 2000-2001. With the hiring of Associate Provost Thomas Angelo in August 2001, the Institute for Teaching and Learning launched in September 2001 with Dr. Angelo as its first director.

The Institute focuses on developing and providing targeted professional development activities through information gathering and sharing. The Institute also documents, publishes, and celebrates teaching and learning innovation and excellence.

Intellectual Property and Technology Center
Jeffrey M. Samuels, B.D., J.D., Director

The Intellectual Property and Technology Center in the School of Law is one of approximately 14 such centers in the nation. The Center exposes the community to critical thinking in the intellectual property law field, bringing in several distinguished speakers and hosting an annual Conference on Intellectual Property Law and Policy. The Center is exploring the possibility of implementing intellectual property curricula into the operations of a number of local businesses. The Center also is developing a Master's of Law in Intellectual Property Law program.

Institute for Life-Span Development and Gerontology
Harvey L. Sterns, Ph.D., Director

The Institute for Life-Span Development and Gerontology, founded in 1976, coordinates multidisciplinary credit certificate programs in gerontology at the undergraduate and graduate levels. In addition, this certificate is included in the Ohio Board of Examiners of Nursing Home Administrators approved course of study in Nursing Home Administration which combines a B.S. in management (Human Resource Management Concentration) with a Certificate in Gerontology.

The Institute of Life-Span Development and Gerontology has grown into a campus-wide program involving more than 65 faculty in 23 different departments, representing 6 colleges. Students in the certificate programs carry out field placements at numerous community service settings. There are over 40 courses at the undergraduate and graduate levels. Research, education, training and service support has been received from the U.S. Administration on Aging, National Institute on Aging, U.S. Department of Education, Office of Special Education and Rehabilitation Services, National Institute on Disability and Rehabilitation Research, AARP Andrus Foundation, Ohio Department of Aging and Area Agency on Aging 10B. The institute also serves as a major site for the Rehabilitation Research and Training Center Consortium on Aging and Developmental Disabilities involving seven universities in six states.

Examples of outreach activities include the Elderhostel program, offered each summer for older adults who participate in a week-long residential learning experience.

The institute is a member of the Northeastern Ohio Consortium on Geriatric Medicine and Gerontology, joining together with the Office of Geriatric Medicine and Gerontology, Northeastern Ohio Universities College of Medicine; Gerontology Center, Kent State University; and Gerontology Committee, Youngstown State University.

Institute of Polymer Engineering
Lloyd A. Goettler, Ph.D.,

The Institute of Polymer Engineering carries out fundamental and applied research in polymer processing, engineering performance and associated characterization.

The Institute, founded in 1983, seeks to be a major intellectual and research resource in Northeast Ohio. The institute maintains up-to-date and futuristic processing and characterization laboratories, with continued interest in development investigation of new process technology and new materials. Its activities also include organization of scientific symposia and various seminars related to polymer processing and engineering.

The Maurice Morton Institute of Polymer Science
Frank W. Harris, Ph.D., Director

The Institute is concerned with basic and applied research in polymers. It was established in 1956 as the Institute of Rubber Research and, in 1964, became the interdisciplinary

Institute of Polymer Science. The University's first Ph.D. program in polymer chemistry was started in 1956 and was administered by the institute until a separate Department of Polymer Science was established in 1967. The Institute maintains extensive laboratory facilities and the Applied Polymer Research Laboratory. It is the principal organization responsible for external funding of research projects and graduate fellowships in polymer science.

Microscale Physiochemical Engineering Center (MPEC)
Edward A. Evans, Ph.D., Director

The Microscale Physiochemical Engineering Center was established in 1996 by faculty with a common research interest in materials composed of very small particles and fibers. These particles and fibers can be used in applications including heterogeneous catalysis, fluid/solid separations, paper-pulp processing, soil remediation, waste water decontamination and solid transport.

The unique feature of MPEC is the ability to form multidisciplinary teams of faculty and graduate students to solve specific industrial problems.

The Center hosts an annual conference, promotes networking, provides a forum for industrial-university cooperation and is a consortium of industrial sponsors for fundamental and applied research in microscale physiochemical engineering.

Training Center for Law Enforcement and Criminal Justice
John M. Boal, Director

The Training Center for Law Enforcement and Criminal Justice, employing the expertise of the Criminal Justice Technology faculty and the experienced professionals in the field of Criminal Justice, provides state certified training in the following areas: Basic Peace Officer Training Academies, Corrections, Private Security, Private Investigations, Jailer Training, Police Refresher Training, Bailiff Training, Firearms Requalifcation, and In-Service Seminars.

Training Center for Fire and Hazardous Materials
David H. Hoover, Ph.D., Director

The Training Center for Fire and Hazardous Materials brings the University, government and industry together into one comprehensive regional center to integrate educational programs, fire and hazardous materials training and other applications of fire and safety technology. The Center coordinates seminars and workshops presented by the Federal Emergency Management Agency (FEMA), the National Fire Academy, the Division of State Fire Marshal and other related organizations. Training in all phases of hazardous materials containment and fire prevention and control is provided under contract to various municipalities, industries and agencies. The programs are supported by the faculty of the Fire Protection Technology degree program in association with other state and nationally recognized professionals.

Section 2

HIGHLIGHTS

Introduction

Section 2 contains academic program and assessment information for The University of Akron. Table lists degree and certificate programs offered at UA with some program attributes, such as the minimu required credits and the activity status. Tables 2.2 and 2.3 provide information on class size and stud faculty ratios. Tables 2.4 - 2.6 contain data on student college preparation and a profile on Fall 2001 freshmen based on ACT scores. Tables 2.7 - 2.9 provide course grade distributions by College/School/Department and student retention information. Tables 2.10 and 2.11 contain data on degrees awarded and graduation rates. Tables 2.12 - 2.15 contain alumni data. Table 2.16 shows the schools from which we draw most of our students. Table 2.17 provides some selected groups of comparative institutions.

Changes from Prior Year Information Releases

For Fact Book 2001 with the assistance of the Dean's office in each college, the list of programs was reviewed and extensively revised. This new structure remains the same for Fact Book 2003 with som additional modifications as reflected in Table 2.1. This structure allows better tracking of degrees awa reported in Table 2.10 and student enrollments reported in Table 3.10 in Section 3.

Highlights

- The UA average Fall 2002 class size was 18, for all levels and section types. The average size for lower division lecture section classes was 26, for upper division lecture section class 19.6 and for graduate lecture sections 13.

- The undergraduate student/faculty ratio increased slightly from 18.5 in Fall 2001 to 19.1 in F 2002. The graduate student/faculty ratio increased slightly to 7.5 from 7.4 the previous Fall semester.

- For Fall 2002 the average ACT Composite score was 20, remaining constant from Fall 2001 average, students came from the top 50% of their graduating classes. The average high sc GPA decreased slightly fro 2.89 to 2.83.

- For Ohio resident students who took the ACT test and graduated from high school in 2002, University of Akron received scores from 6,930 and 20.5% of those enrolled at UA as new freshmen. The highest yield rates of college bound students who took the ACT came from Stark, and Cuyahoga counties.

- For Fall 2002 undergraduate average course GPA was 2.8, virtually unchanged for the last years. The College of Education continued to have the highest average course GPA (3.55) University College continued to have the lowest GPA (2.20).

- The Fall 2002 graduate student average course GPA was 3.49. The Colleges of Nursing an Education had the highest average course GPA, 3.83 and 3.82 respectively. The School of had the lowest (2.85).

NOTES: (1) The stated ranges for the minimum degree requirements may reflect the difference in program length due to the student's academic background, their professional accomplishments, and/or the chosen area of study.

(2) An "O" indicates the program is offered (along with the first full fiscal year it was offered); An "X" indicates that the program is no longer offered or open to new admissions (along with the last full fiscal year the degree could be awarded).

(3) "<" stands for "before", ">=" stands for "during or after". For example, "<FY90" stands for "before Fiscal Year 1990".

Notes: (1) Faculty FTE is, for non-individual studies, equal to the number of Fall semester undergraduate course credit hours taught divided by 12 and the number of graduate credit hours divided by 9. For undergraduate individual studies courses or courses with less than three students, faculty FTE equals student credit hours divided by 60 (5x12); for similar type graduate courses, faculty FTE equals student credits hours divided by 27 (3x9). No faculty member was equated to more than 1.0 faculty FTE.

(2) Student FTE is a hypothetical student who enrolls in 15 credit hours per semester. The student FTEs in this table are course-based, not student-level based, indicators of productivity.

(3) Student Faculty Ratio (SFR) is the student FTEs divided by Faculty FTEs.

NOTES:
(1) ACT Equivalent is the ACT score with the same percentile rank as the reported SAT total score.
(2) ACT/SAT Composite uses the ACT combined score if reported. If only the SAT score is reported, the ACT Equivalent score is used.
(3) Unclassified / Non-Degree includes students who have not yet declared a major field of study and also the non-degree Diploma Nursing Program.
(4) Headcount by college includes all declared majors.
(5) For Factbook 2003, the Fall 1998-01 new freshmen totals by college were readjusted to reflect new freshmen totals by college in Table 3.04.

NOTES: (1) The average ACT composite score for the State of Ohio in 2001 was 21.4
(2) "Market Overlap" is the number of students who sent scores both to UA and the institution listed
(3) "UA Yield" is the number of students who sent scores to both institutions but enrolled at UA
(4) "Yield Ratio" is calculated by total UA yield divided by total scores received
(5) "Market Overlap Ratio" is calculated by total market overlap by total UA scores received

Notes: (1) "UA Yield" is the number of students who sent scores to UA and ultimately enrolled.
(2) "County Rank" is the county percentage order of the number of ACT scores UA received.

NOTES: (1) A program with an "X" indicates the program has been or is scheduled to be deleted.

(2) A dash in the "AWARDS" filed indicates the program was not offered that year.

(3) "AVG SCH" are all credits, including transfer SCH.

(4) "% Non-White" excludes "Non-Resident Alien" and "Other/Unknown".

(5) "% OH HS" is the percentage of students who graduated from Ohio high schools.

(6) The degrees awarded reported in Table 2.10 reflect data as collected from the final audit of the commencement files by the Registrar's Office following each term's commencement. HEI reporting is submitted once at the end of each fiscal year. Discrepancies may arise between the two files as late awards may be retroactively added following the final term's audit. The table below depicts the discrepancies:

1999	2000	2001	2002
0 Associates 2 Bachelors 2 Masters	1 Associates 7 Bachelors 4 Masters	No discrepancies	0 Associates 9 Bachelors 2 Masters

Section 3

HIGHLIGHTS

Introduction

Section 3 contains information on The University of Akron students. Information concerning applications, admissions, attendance and headcount by rank is summarized in Tables 3.1 - 3.5. Tables 3.6 - 3.8 depict location of permanent residence by nation, state or Ohio county. Student headcount by college, department, program, attendance status and demographic characteristics data are presented in Tables 3.9 - 3.13. Tables 3.14 - 3.16 contain FTE trend data, student credit hour load information and full-year equivalent student (FYES) trends.

Changes from Prior Year Information Releases

The data definitions that were revised for Fact Book 2001 remain in this version. Students are now associated with their college of declared major. Additionally, some changes appear that are associated with the conversion to the PeopleSoft Student Administration System. Students are now able to declare a certificate program as their degree of study as is apparent in Table 3.10. Also, there are major codes that are specifically designed for those students not pursuing a program or degree, but taking credit coursework as "non-degree seeking or unclassified" students. For those students, their enrollment is not counted within the academic college, but under "Unclassified / Non-Degree Seeking".

Numbers reported in the Fact Book will differ slightly from those reported to the Ohio Board of Regents' Higher Education Information (HEI) system. Student headcount and credit hour production in the Fact Book are derived from the semester opening census date (15th calendar day) numbers. Students who enroll in flexibly scheduled course sections after the 15th calendar day, but before the HEI census date, are not reported here. They are reported in HEI. Degrees awarded reported in the Fact Book are of the date the commencement file is loaded. Students who are retroactively added to commencement files are not in the Fact Book, but may be reported in HEI if they are added prior to the annual HEI degree file submission.

Highlights

Fall 2002 undergraduate applications increased to 9,968 (+1%). New freshmen applications decreased slightly from 8,035 to 7,945 (-1.1%). Transfer applications increased from 1,354 to 1,455 (+7.5%). The total undergraduate yield rate remained at 53% with the transfer student yield rate at 72% and new freshmen yield rate at 50%.

For Fall 2002, 3,382 new freshmen were enrolled (-3.4%). Twelve percent were directly admitted to degree granting colleges, the same percentage as in Fall 2001. Seventeen percent were provisionally (conditionally) admitted, a decrease of 1% from Fall 2001. Graduate applications overall decreased from 3,130 to 3,088 (-1.3%).

Fall 2002 headcount increased to 24,304 (+0.8%). Undergraduate headcount was 20,117 (+0.7%) and graduate headcount was 4,187 (+1.4%). The undergraduate student body is 55% women, 17% non-white, 1% non-resident alien, and 67% full-time. The graduate student body is 56% women, 10% non-white, 1.5% non-resident alien and 53% full-time.

UA total Fall 2002 student credit hour production was 268,084 (17,872.2 FTE), an increase of 2%. For Fall 2002, 40% of students were enrolled for less than 12 credits, 54% were enrolled for 12 – 16 credit hours and 6% were enrolled for more than 16 credits.

In Fall 2002, students came from 42 different states, 1 possession and the District of Columbia. International students came from 84 different countries.

NOTES: (1) "% OH HS" is the percentage of applicants who graduated from Ohio high schools, excluding applicants who did not report any high school information. Average GPA reflects final, official transcript information.

(2) "% Black Male" is the percentage of male applicants, excluding "Non-Resident Alien" and "Other/Unknown" who reported African American as their ethnicity on the application for admission.

(3) "Accept Ratio" is calculated by total applicants accepted divided by applicants applied.

(4) "Yield Ratio" is calculated by total applicants enrolled divided by applicants accepted.

(5) "Unclassified / Non-Degree Seeking" include students who have not yet declared a major of study.

(6) Wayne College applicants include those who applied to an associate degree program offered at Wayne only and those students with undeclared majors who submitted their application to Wayne College.

(7) New freshmen and transfer students reflected in this table applied specifically for the Fall 2002 semester. In the enrollment tables that follow, these same students are reflected as "New" and "Transfer". At the college level, students may have changed majors since the time of their application, thereby resulting in discrepancies between tables.

(8) Only new freshmen and transfer applicants are reflected here. All unclassified applicants, such as postsecondary, transient or guest, and postbaccalaureate applicants are not included.

(9) Headcount by college includes all declared majors.

NOTES: (1) "% OH Res" is the % of students who indicated Ohio as their residence on their application for admission.
(2) "% Non-White" excludes "Non-Resident Alien" and "Other/Unknown".
(3) "Accept Ratio" is calculated by total applicants accepted divided by applicants applied.
(4) "Yield Ratio" is calculated by total applicants enrolled divided by applicants accepted.
(5) Only applicants applying for formal acceptance into a graduate program and reviewed for acceptance by the academic college are included in this table. Non-degree seeking or unclassified applicants are not.
(6) New graduate students reflected in this table applied specifically for the Fall semesters listed. In the enrollment tables that follow, new graduate students may have applied in previous semesters thereby resulting in discrepancies between the application and enrollment tables.
(7) Only completed applications having been considered for admissions are included above. "Pending" are not.
(8) For Factbook 2003, the Fall 2000 - 02 applied / admitted / enrolled numbers for the Law School were revised to reflect the official counts as supplied by the Law School Dean.

NOTES: (1) "Directly Admitted" students are admitted directly into a degree-granting college.

(2) "Unconditionally Admitted" students meet the criteria for admission, but not the criteria for direct admission.

(3) "Conditionally Admitted" (Provisional) students are academically underprepared and are required to to complete skill building courses and other prescriptive activities.

(3) "Other Admits" include guest or transient students, students required to take only developmental courses, or those students over the age of 21 not required to submit ACT/SAT scores for admission.

(4) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(5) % Non-white excludes "Non-Resident Alien" and "Other/Unknown".

(6) % OH HS grads is the percentage of students who graduated from Ohio high schools.

NOTES: (1) Unknown undergraduate admission includes guest or transient students, postbaccalaureate students, students who do not qualify for regular admission to the university or who are participating in a special short-term academic program. Unknown graduate admission include students who wish to take particular courses but are not working toward a graduate degree, special workshop students permitted to take workshops only for graduate credit without being admitted to the Graduate School, and guest or transient students.

(2) Unclassified / Non-Degree Seeking (NDS) rank includes postbaccalaureates as well as non-degree seeking students. At the college-level, Wayne College NDS students and undeclared majors are included in Wayne's headcount numbers, all other UA NDS students are in the Unclassified / NDS row.

(3) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(4) "New" and "Transfer" students above reflect the college of their major at the time of census enrollment. This may differ from the major at at the time of their application, thereby resulting in discrepancies between the application and enrollment tables.

NOTES: (1) "Unclassified / Non-Degree Seeking" (NDS) include non-degree seeking students as well as undeclared majors. At the college level, Wayne College NDS students are included in Wayne's numbers, all other UA NDS students are in the Unclassified / Non-Degree Seeking row.

(2) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(3) "First-Time First Year students represent those students who are enrolled in college for the first time and after earning either a high school diploma or GED.

(4) The number of students with undeclared majors or those not yet admitted to a degree-granting college are as follows (University College):

1998	1999	2000	2001	2002
7,963	7,795	7,608	8,244	8,791

(5) Law School breakdown by day / eve students:

	1999	2000	2001	2002
Day	377	364	368	379
Evening	188	164	215	231

(6) Students whose majority of SCH were at Wayne:

1998	1999	2000	2001	2002
1,656	1,573	1,515	1,736	1,699

NOTES:
(1) A program with an 'X' indicates the program has been or is scheduled to be deleted.
(2) A dash in the headcount field indicates the program was not offered that year.
(3) "Avg SCH" is average credit hour load carried during the Fall 2002 semester.
(4) "Avg GPA" is the average GPA at the end of the Fall 2002 semester.
(5) "Unclassified / Non-Degree Seeking" (NDS) include postbaccalaureates, undeclared majors as well as non-degree students.
(6) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.
(7) The number of students with undeclared majors or those not yet admitted to a degree-granting college are as follows for University College.

2000	2001	2002
7,608	8,244	8,791

(8) Beginning in Fall 2001, degree-seeking students may declare one of UA's certificate programs as their primary major.
(9) Beginning in Fall 2001, a breakdown is displayed if there are multiple types of bachelors and masters degrees offered in the same academic area. Prior to Fall 2001, this distinction could not be made.

NOTES: (1) "Unclassified / Non-Degree Seeking" (NDS) includes non-degree students as well as undeclared majors. At the college-level, Wayne College NDS students are included in Wayne's headcount numbers, all other UA NDS students are in the Unclassified / Non-Degree Seeking row.

(2) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(3) "First-Time First Year" students represent those students who are enrolled in college for the first time and after earning either a high school diploma or GED.

(4) The number of students with undeclared majors or those not yet admitted to a degree-granting college are as follows:

	2000	2001	2002
University College	7,608	8,244	8,791

(5) Law School students are classified Day/Evening based upon program of admittance. Day students are considered full-time while evening students are part-time. Breakdown for day/evening students are as follows:

	2000	2001	2002
Day	364	368	379
Evening	164	215	231

(6) Students whose majority of SCH were at Wayne College:

1998	1999	2000	2001	2002
1,656	1,573	1,515	1,736	1,699

NOTES: (1) "Unclassified / Non-Degree Seeking" (NDS) include non-degree students as well as undeclared majors. At the college-level, Wayne College NDS students are included in Wayne's headcount numbers, all other UA NOTES: students are in the Unclassified / Non-Degree Seeking row.

(2) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(3) The number of students with undeclared majors or those not yet admitted to a degree-granting college are:

	2000	2001	2002
University College:	7,608	8,244	8,791

(4) Law School students are classified Day/Evening based upon program of admittance. Day students are considered full-time while evening students are part-time. Breakdown for day/evening students is as follows:

	2000	2001	2002
Day	364	368	379
Evening	154	215	231

(6) Students whose majority of SCH were at Wayne College:

1998	1999	2000	2001	2002
1,656	1,573	1,515	1,736	1,699

NOTES: (1) Unclassified / Non-Degree Seeking (NDS) includes non-degree seeking students as well as undeclared majors At the college-level, Wayne College NDS students are included in Wayne's headcount numbers, all other UA NDS students are in the Unclassified / Non-Degree Seeking row.

(2) Headcount by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.

(3) The number of students with undeclared majors or those not yet admitted to a degree-granting college are as follows:

	2000	2001	2002
University College	7,608	8,244	8,791

(4) Law School students are classified Day/Evening based upon program of admittance. Day students are considered full-time while evening students are part-time. Breakdown for day/evening students are as follows:

	2000	2001	2002
Day	364	368	379
Evening	164	215	231

(5) Students whose majority of SCH were at Wayne College:

1998	1999	2000	2001	2002
1,656	1,573	1,515	1,736	1,699

(6) "<" means before; ">" means after.

NOTES: (1) Student FTE is a hypothetical student who enrolls in 15 credit hours per semester.

(2) Headcount of students whose majority of credit hours were taken at Wayne College:

Fall 1998	Fall 1999	Fall 2000	Fall 2001	Fall 2002
1,656	1,573	1,515	1,736	1,699

(3) Developmental level courses do not carry academic credit toward a degree program. Lower Division includes course numbers under 300 (1st & 2nd year). Upper Division includes 300 and 400 level courses (3rd & 4th year). Graduate courses are numbered 500 and above.

(4) Although the following programs report to the SVPP, in this Fact Book the student credit hours generated by them are reported under degree granting colleges. Aerospace Studies, Military Science and the Honors Program are reported in BCAS. Women's Studies is under FAA.

(5) FTE is rounded to the nearest tenth Therefore, totals may not add due to rounding.

NOTES: (1) Headcount (HC) and Student Credit Hours (SCH) by college includes all declared majors, not just those formally admitted into that college. Students are counted only once, by the home college of the program they are enrolled in.
(2) Unclassified (UNC) includes non-degree seeking students and those not yet declaring a major.
(3) "<" stands for "less than"; ">" stands for "greater than". For example, "< 1 Cr" stands for "less than 1 credit hour."

NOTES: (1) "FYES" or Full Year Equivalent Student is the sum of Summer, Fall, and Spring semester SCH / 30, OBR's definition of a Full Year Equivalent

(2) Headcount of students whose majority of credit hours were taken at Wayne College.

Fall 1998	Fall 1999	Fall 2000	Fall 2001	Fall 2002
1,656	1,573	1,515	1,736	1,699

(3) Developmental level courses do not carry academic credit toward a degree program. Lower Division includes course numbers under 300 (1st & 2nd year). Upper Division includes 300 and 400 level courses (3rd & 4th year). Graduate courses are numbered 500 and above.

(4) The credit hours in this table are course-based, not student-level based.

(5) Although the following programs report to the SVPP, in this Fact Book the student credit hours generated by them are reported under degree granting colleges. Aerospace Studies, Military Science and the Honors Program are reported in BCAS. Women's Studies is reported in FAA.

Section 4

HIGHLIGHTS

Introduction

Section 4 profiles employees of The University of Akron as of October 1 of each year. Table 4.1 contains data on full- and part-time employees by job category for UA vice presidential units. Table 4.2 provides data on full- and part-time employees by gender, ethnicity, and job category for UA colleges and administrative units. Table 4.3 and 4.4 contain data on full-time employees. Table 4.3 contains demographic data by UA department, while Table 4.4 provides salary data by college and administrative unit. Tables 4.5 and 4.6 show data on full-time faculty concerning tenure status, gender, ethnicity, age, years in rank, and years of UA service by department.

Highlights

- Between Fall 2001 and Fall 2002, total University employment (includes full- and part-time employees plus students workers) decreased by 11 employees (-.2%) to 5,987. If student workers are excluded, employment fell by 2% (-69 employees).

- Full-time employment increased by 4 employees in Fall 2002, to a total of 2,294 employees (+.2%). Employee types decreasing in numbers were Faculty by 15 employees and Clerical by 6 employees. Administrative staff grew by 3 employees, Skilled Crafts by 1 employee, Professional staff by 11 employees, Technical by 4 employees, and Maintenance grew by 6 employees. Since 1999, employment of Maintenance workers has increased by 38%, Technical workers have increased by 12%, and Professional workers by 11%. The Faculty has decreased by 3% and Skilled Craft workers by 8%.

- Total non-student, part-time employment remained fell from 1,179 in Fall 2001 to 1,106 in Fall 2002. (-6%). Professional staff decreased by 8%. Maintenance workers decreased by 2%, Clerical staff by 16%, and Technical staff by 9%. Since 1998, employment of part-time Maintenance workers has increased by 130%. All other job types changed less than 5% since 1998.

- In Fall 2002, 50% of full-time employees were female and 17% were resident minority.

- In Fall 2002, 68% of UA tenure track faculty members were tenured. The tenure rate for women was 60%.

- In Fall 2002, UA had 72 tenured minority faculty members. The tenure rate was 63%.

- In Fall 2002, except for clerical workers, average salaries for full-time female employees in each job category were less than for full-time male employees.

- In Fall 2002, the average number of service years for full-time faculty was 11 years.

NOTES: (1) Headcount by Job Type was determined by the primary job assignment of each employee as of October 1, 2002, with data in the HR system as of November 17, 2002.

(2) Includes 63 visiting employees (49 faculty, 14 others). Adjuncts are not included.

(3) UA's Office of Human Resources and iPLAN conducted an extensive HR data audit that resulted in the re-categorization of a significant number of positions by Job Type. This data administration task resulted in enhancing the reporting accuracy of employment trends by Job Type depicted in Section 4.

(4) For 2002, the Board of Trustees and University Auditor's staff moved to VP, General Counsel

NOTES: (1) The column labeled "% Minority" is the number of resident non-white employees divided by the number of resident employees less those whose ethnicity is "Other or Unknown".

(2) The column labeled "% Female" is the number of resident females divided by the number of resident employees.

(3) Headcount by Job Type was determined by the primary job assignment of each employee as of October 1, 2002, with data in the HR system as of November 17, 2002.

Includes 63 visiting employees (49 faculty, 14 others). Adjuncts are not included.

(4) Organizational changes: For 2002, the Board of Trustees and University Auditor's staff moved to VP, General Counsel.

NOTES: (1) The column labeled "% Minority" is the ratio of the number of resident non-white employees divided by the number of resident employees less those whose ethnicity is other or unknown.

(2) Headcount by Job Type was determined by the primary job assignment of each employee as of October 1, 2001, with data in the HR system as of November 16, 2001.
Includes 63 visiting employees (44 faculty, 14 others). Adjuncts are not included.

(3) Organizational Changes: For 2002, the Board of Trustees and University Auditor's staff moved to VP, General Counsel.

NOTES: (1) The column "% Res F" is the percent of faculty that is female for each rank cohort after non-resident aliens are excluded.
(2) The column "% Res Minority" is the percent of faculty that is non-white for each rank cohort after non-resident aliens and unknowns are excluded.
(3) Headcount by Job Type was determined by the primary job assignment of each employee as of October 1, 2002, with data in the HR system as of November 17,2002.
Includes 49 visiting faculty. Adjuncts are not included.

NOTES: (1) In the detail that follows, salaries are displayed only if there are 2 or more employees in the cohort.
(2) Mean salaries are in thousand of dollars.
(3) Headcount by Faculty Rank was determined by the primary job assignment of each employee as of October 1, 2002, with data in the HR system as of November 17, 2002.
Data includes 49 visiting faculty. Adjuncts are not included.

Section 5

HIGHLIGHTS

Introduction

Section 5 contains information on The University of Akron fiscal year revenue and expenditures, tuition and fees, and selected comparative data. Tables 5.1 and 5.2 contain data on revenues by source for UA vice presidential units, colleges and schools. Table 5.3 contains data on expenditures by source for UA vice presidential units, colleges and schools. Tables 5.4, 5.5 and 5.6 report student financial assistance. Table 5.7 shows UA tuition and fees and in Table 5.8 these fees with other selected institutions. Tables 5.9 – 5.11 places UA figures within the State of Ohio context, while Table 5.12 provides national education price information.

Highlights

- In FY02, total University revenue increased to $315.7 million (+7.3%). Unrestricted revenue increased to $265.3 million (+5.5%). Student fees increased to $117.3 million (+18.5%). State appropriations decreased to $97.1 million (-5.6%).

- In FY02 restricted revenues, as a proportion of total revenues increased to 16%. The restricted endowment income increased by 21.6%, restricted federal grants increased by 22% and restricted private income increased by 8%.

- In FY02, total Educational & General expenditures increased $18.5 million (5.9%) to $302.4 million. Institutional support increased $4.3 million (10%) to $47.1 million. Student aid increased $6.4 million (19.4%) to $39.3 million. Research expenditures increased $3.6 million (22.3%) to $19.8 million.

- In FY03, annualized resident undergraduate tuition for both the Community & Technical College ($4718) and Wayne College ($3928) are the highest among Ohio's state-assisted community colleges and state-assisted technical colleges. Wayne College has the second highest resident tuition among state-assisted branch campuses.

- In FY03, UA resident undergraduate annualized cost was $5,798, $74 above the average for Ohio's state-assisted universities. UA's average resident undergraduate cost increased by 18% from FY02 to FY03, 3% above the statewide average.

- UA resident undergraduate tuition is greater than the average for selected national peer institutions. In FY03, it was just 2% above the MAC average, but 35% above the Urban 13 average and 54% above the MUG average.

- In FY03, UA non-resident undergraduate annualized cost was $12.364; $71 higher than the average for Ohio's state-assisted universities. While the average non-resident undergraduate cost increased by 13% statewide from FY02 to FY03, UA's rate increased by 12%.

NOTES: (1) Numbers are in thousands of dollars.
(2) Negative numbers are in parentheses.
(3) In FY98 the University adopted the provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools.* This change in accounting procedures led to the creation of the "Unrealized Appreciation (Depreciation) on Investment" line in the report. For a detailed explanation see Audited Financial Statements, FY98, page 11.
(4) These are total University of Akron figures and include Wayne College.
(5) "Unrestr" and "Restrict" are abbreviations for "Unrestricted" and "Restricted", respectively.

NOTES: (1) The distribution of student credit hours (SCH) by college is used to prorate tuition revenues to the appropriate colleges. The magnetic affect is not considered in the proration of tuition and subsidy earned by college.

(2) "Course & Computing Fees", and" Information Technology Fee" revenues are directly traced to the college providing the course. The University-wide Technology fee was implemented in FY00; however, the College of Engineering implemented its own technology fee two years earlier. With the exception of Wayne College and the College of Engineering (which retain 100%), 35% of the fees collected stay in the college and the remaining 65% is distributed to the VPCIO division for central use. In FY01 a sum of $883,718 was distributed to the colleges, which is reflected in the subsequent college detail that follows.

(3) "Other Student Charges" include General Service Fees (net of Intercollegiate Athletics support) and miscellaneous fees that cannot be attributed to colleges or linked to credit hour production.

(4) "Instructional Subsidy-Earned" is The University of Akron's share of the State's Instructional Support allocation.

(5) "Challenge Support" includes: Success Challenge allocation, which is based on retention and timely graduation of at-risk students, and Access Challenge allocation, which is provided to partially offset the controlled tuition of the Community & Technical College and Wayne College.

(6) "IGB" (Institute for Global Business) is a unique line item in the State budget. The funding is applied to the College of Business Administration's operating budget.

NOTES: (1) Numbers are in thousands of dollars and reflect expenditures prior to the redistribution of computer expenses to the departments.
(2) Detail data represents current organizational structure. Most of the rearrangement of accounts are the result of three major changes. Accounts were moved from the Sr. VP & Provost to the VP for Student Affairs and VP Research/Dean of Grad School, as those new vice presidents developed their offices. The Central Accounts are reported separately from the VP for Business & Finance. Aerospace Studies, Military Science and the Honors program are reported in BCAS. Women's Studies is reported in FAA. While these programs support the SVPP, their expenses are reported under degree granting colleges.
(3) ERIP, Student Workers, Student Financial Aid, and Auxiliary accounts are grouped separately.
(4) Faculty research grants are grouped to the Vice President for Research & Graduate Studies.

Source: The University of Akron Audited Financial Statements, FY98-02, Exhibit C and Schedules 6 & 7
Details are from the General Ledger Files based upon FY02 HEI financial data submission.

NOTES: (1) Of the 32 GA's in Geography & Planning, 11 are less than full GA's.
(2) Of the 27 GA's in PA & US, 2 are 1/2 funded by Geography & Planning
(3) Of the 16 GA's in Statistics, 2 are less than full GA's
(4) Of the 56 GA's in Music, 29 are less than full GA's and 1 is 1/2 funded by dance.
(5) Of the 52 GA's in Speech Lang/Path/Aud., 1 is less than a full GA.
(6) Of the 15 GA's in Accounting, 5 are less than full GA's
(7) Of the 15 GA's in Finance, 1 is less than a full GA.
(8) Of the 15 GA's in Global/International Business, 4 are are less than full GA's.
(9) Of the 14 GA's in Management, 1 is less than a full GA.
(10) TA/IS: Teaching Assistant or Instructional Support
(11) RA: Research Assistant
(12) AdA: Administrative Assistant
(13) FF: Fellows (Students who receive a stipend, but have no work requirement.)

NOTES: (1) Annualized cost includes the instructional and general service fees only
(2) Undergraduate annualized cost is calculated for a student by taking 12 - 16 credits each term for residents and 15 credits each term for non-residents
(3) Graduate and Law annualized cost is calculated for a student by taking 9 credits each term
(4) The annualized cost in FY1998 reflects the tuition fee increase for the spring semester
(5) Facilities, technology, career advantage, developmental program support and administrative fees are not included

NOTES: (2) Pursuant to the rules established by Senate Bill 6 (122nd Gen. Assembly), a composite score of or below 1.75 for two consecutive years would trigger a fiscal watch.

(3) As prescribed by Ohio Admin Code rule 126:3, the methodology for calculating the ratios is:
Viability Ratio: Expendable fund balance divided by plant debt;
Primary Reserve Ratio: Expendable net assets divided by operating expenses.
Net Income Ratio: Change in total net assets divided by total revenues.

NOTES: (1) Subsidy to this private university for medical education.
(2) Provides aid to students attending independent non-profit institutions and proprietary schools, as well as to students attending state-assisted colleges and universities.
(3) Provides aid to students attending independent non-profit institutions only.
(4) Numbers are in thousands of dollars.
(5) Green (red) indicates a larger (smaller) percentage change FY02-03 than for FY01-02.

Section 6

HIGHLIGHTS

Introduction

Section 6 contains information on research, libraries, computer facilities, continuing education and distributed education. Tables 6.1 – 6.5 provide summary information on expenditures, proposals, and other measures of research activity. Table 6.6 provides selected comparative research activity data. Tables 6.7 – 6.10 contain data on UA libraries and computer facilities. Information on UA continuing education and distributed education outreach activities is contained in Tables 6.11 and 6.13. There are 23 charts that highlight key indicators and trends.

Changes from Prior Year Information Releases

Table 6.12 now contains current comparative information about web-based and web-enhanced course offerings and headcount of these courses during FY01-02. Additionally Table 6.13 provides comparative usage information of UA's Distance Learning Classrooms (DLC) during the Fall 2001 and 2002 semesters.

Highlights

Research expenditures in FY02 were $19.8 million, an increase of $3.7 million (+22%). Research expenditures have increased every year over the last five years (+6.8%, +23%, 13%, 22%).

In FY02, the number of total awards increased to 478 (+3%). Since FY98, the number of total awards increased 18%. Federal awards are up 11% at $14.7 million and State awards are up 46% at $6.7 million in FY02. The total value of awards increased to $29.2 million (+23%).

In FY02, expenditures for grants and contract expenditures increased by $3.7 million (+20%). Since FY99, these expenditures have increased yearly (+5.5%, +12%, 20%).

Workforce Development and Continuing Education continued to increase the number of noncredit courses offered from 1,226 to 1,398 (14%). FY00 resulted in a 10% increase in registrations and a 3% increase in gross income. The number of credit courses almost doubled from 187 to 368.

The number of volumes at UA's Bierce Library increased 2.3%, the School of Law Library increased 5.4%, and Wayne College Library increased 3.7%.

UA's IBM System/390 Enterprise Server was upgraded in August 2002 to model Y36 with a three-way processor and a speed of 409 MIPS.

The number of computer stations available to UA's community increased from 236 to 260, while the overall number of stations increased from 2,450 in FY01 to 2,830 in FY02.

UA's offerings of web-based courses increased 48% (46 course sections). Web-enhanced course offerings increased 55% (720 course sections). The number of students enrolled for either a web-based or web-enhanced course rose 12.6% from FY01 to nearly 50% of the total students enrolled on the Akron campus.

TABLE 6.8 University of Akron Mainframe Computing Facilities

IBM System/390 Enterprise Server

The System/390 Parallel Enterprise Server general-purpose models are a continuation of the Complementary Metal Oxide Semiconductor (CMOS) product family. The 9672 Model Y36 is a Generation 5 S/390 Parallel Enterprise Server that contains a three-way central processor.

Memory:	5 GB Central Storage
Speed:	409 MIPS
Channels:	24 Parallel channels - 4.5 MB/sec copper channels 32 ESCON - 17 MB/sec fiber optic channels

Channels - Parallel
The parallel channel feature provides three channels on one card. Each parallel channel attaches from one to eight control units and addresses up to 256 I/O devices.

Parallel channel cabling can be done using existing Bus and Tag cables from the first control unit on each channel to the 9672. At the 9672, a 78D-pin parallel jumper cable will be provided to connect the bus and tag cables to the parallel channel card. The 9672 will continue to support Bus and Tag cable lengths up to 400 feet.

Channels - ESCON
The ESCON (Enterprise System Connection) Channel consists of one card in the System/390 Parallel Enterprise Server and contains four channels. The ESCON Channel allows for attachment of I/O control units using a fiber optic cable, with higher speed and over longer distances compared to attachment via the Parallel Channel. The I/O devices attach through control units equipped for ESCON attachment. One control unit can be attached directly, point to point, to an ESCON Channel; several control units can be attached via an ESCON Director. The ESCON Channel allows the addressing of up to 1024 I/O devices per channel to the System/390 Parallel Enterprise Server.

The System/390 Parallel Enterprise Server allows 120 control units per ESCON channel. All ESCON channels are capable of operating at a data rate of up to 17 MB per second.

2105-F20 IBM Enterprise Storage Server
The IBM 2105 Enterprise Storage Server, IBM development code name "Shark", is the latest in IBM DASD. The ESS has 2.9 terabytes of storage and is based on a RAID 5 (Redundant Array of Inexpensive Disks) fault tolerant DASD architecture. The disk array consists of 112 high performance 36 gigabyte drives that emulate OS/390 3390 Model 3 devices. The response time for the 3390 devices ranges from less than 1 millisecond to upwards of 6ms. These fast response times are attributed to the 10,000 RPM high performance drives along with the 8 gigabytes of cache memory in the controller. The OS/390 system uses 16 fiber optic ESCON channels with a maximum transfer rate of 17 MB/sec each for a total theoretical throughput of 272 MB/sec or 2.2 Gbits/sec. Other operating systems, such as UNIX and NT, use SCSI attachments to interface with the ESS.

Capacity:	2.9 terabytes allocated as follows: • 1.26 terabyte for production OS/390 • 1.26 terabyte for Flashcopy Backups of production • 420 gigabytes for test OS/390
Cache:	8 GB
Channels:	16 ESCON 8 SCSI

IBM 3494 Magstar Tape Library
The IBM Magstar Tape Library is the latest in automated tape library technology. Consisting of only four frames, there are two separate tape library systems housed within the physical complex. The first library system is a traditional automated tape library system similar to the previous Sutmyn ATL. The new technology has increased the storage capacity of the cartridges to 120 megabytes, 200 times the capacity of the previous cartridges. The second library system is a virtual tape system that utilizes a disk cache subsystem to emulate 32 virtual tape drives. Depending on the activity and utilization of the cache, the virtual tape is eventually written to a physical cartridge containing other virtual volumes. In addition to automation, the virtual tape system enables the system to effectively utilize the entire capacity of these high density tape cartridges. The two independent library systems have their own physical tape transports and control units but share other common components such as the robotic arm and storage cells.

Tape library automation provides for fast retrieval of data stored on tape using software controlled robotics. With automation, labor requirements associated with mount, shelving and cataloging tape are reduced. Automation simplifies implementing unattended operations for backups and makes it possible to improve services by moving applications, such as report distribution and microfiche, to tape in a cost effective manner. The result is improved tape mount operations with lower overall storage costs.

ATL/VTS Capacity: 805 cells/cartridges
ATLTransports: 3590 E quantity: 4
VTS Physical Transports: 3590 E quantity: 4
VTS Virtual Transports: 3490 quantity: 32
Individual VTS 3590 cartridge capacity: 20 GB uncompressed, 60 GB compressed
Individual ATL 3590 Expended cartridge capacity: 40 GB uncompressed, 120 GB compressed

NOTES: The unit of measure is the number of CPU cycles.
"Daily Average" is the hourly average percentage of total cycles available that are used.
"Max % Busy for 1 Hour" is the maximum % of total cycles available in one hour during the day.
"Average by Shift" is hourly average % of total cycles available during specified shift.
"Prime-time Average" is the hourly average % of total cycles available during specified range.

TABLE 6.11 University of Akron Workforce Development and Continuing Education Statistics

Workforce Development and Continuing Education

Administrative changes:

1. 1994: The offices of Continuing Education, Public Service, and Outreach (CEPSO) were reorganized as The University of Akron Service Centers (UASC). This decentralized system served as a service support unit for the colleges. UASC supported academic programs in the colleges. Revenue was generated on a fee-for-services basis.
2. 1997: UASC was reorganized as the Division of Continuing Education. This centralized unit functioned as a developer of original programming as well as a fee-for-services provider. The Division continued to function with noncredit programs, but generated income which was based on programming.
3. 1998: The Division of Continuing Education was reorganized as Continuing Education and the Evening Division (centralized unit). This unit generates income from credit and noncredit programming as well as fee-for-services.
4. 2001: Continuing Education and Evening Division was reorganized as Workforce Development and Continuing Education. This unit generates income from noncredit programming as well as fee-for services.

Benchmark Data Noncredit Programs

Year	Net Registrations	Courses Offered	Gross Income

TABLE 6.12 FY03 Distance Learning Sites and FY01-02 Web-Based / Web-Enhanced Courses

Distance Learning Classrooms (DLC)

These classrooms are equiped to deliver synchronous 2-way video and audio via fiver optic or T-1 technology, including a touch-sensitive SMART Board with internet capability, allowing multimedia delivery of course content. Each facility is capable of connecting up to five different locations simultaneously.

Technology Enhanced Classrooms (TEC)

These classrooms are equipped with a ceiling mounted video/data projector, VHS player, 8 ft. electric screen, audio mixer with sound amplication, an intene audio mixer with sound amplification, an internet connection and telephone. Faculty and students can project video, connection and telephone. Faculty anc students can project video, receive cable television, display data, and interact on the internet. These rooms are capable of video conferencing events.

HIGHLIGHTS

Introduction

Section 7 provides descriptive statistics on The University of Akron physical facilities (buildings and grounds) and selected indicators of their use. Table 7.1 lists UA buildings by campus, year of acquisition, size and value. Tables 7.2 & 7.3 show room and space distribution by building and use. Table 7.4 contains occupancy rates for residential buildings and Table 7.5 contains enrollments for classrooms by day and start-time. Dispersed throughout Section 7's 5 tables are 13 charts that highlight key indicators and trends.

Highlights

- In Fall 2002, The University of Akron owned 71 buildings on the main campus. UA has the use of an additional 6 buildings owned by The University of Akron Foundation.
- The University owned an additional four buildings on the Wayne College campus in Fall 2002.
- UA's owned buildings had over 5.9 million gross square feet, with a book value over $320 million and a replacement value of $719 million.
- The average age of owned buildings was 43 years. About 61% of these buildings were over 30 years old and 32% were over 50 years old. Thirty-eight percent of the buildings representing 41% of the gross square feet were built or renovated over 30 years ago.
- The University held classes both during the week and on weekends with starting times from approximately 6:00 am to after 8:00 pm. Monday, Tuesday and Wednesday have the heaviest enrollments (23%, 20%, and 23% of the total weekly enrollment respectively). One percent of enrollments were on weekends, while two percent were in class with meeting times designated as "To Be Announced" (TBA).
- Regularly scheduled classes with starting times before 9:00 am represented 14% of enrollments, those with starting times from 9:00 am to 4:00 pm represented 66% of enrollments and those with starting times after 4:00 pm represented 18%.
- In Fall 2002 the overall residence hall occupancy rate was 95%, one percent smaller than in Fall 2001. Occupancy rates of individual halls ranged from a high of 100% in Wallaroo Residence Hall to 84% in Wallaby Residence Hall.

TABLE 7.1 Fall 2002 University Owned Building Inventory

	Year Built	Year Acquired	Year Renovated	Gross Sq. Ft.	NASF (1)	Book Value (000)	Replacement Value (000)	Replacement Value per GSF
University Owned Buildings								
Akron Campus		(71 Buildings)		5,890,877	4,210,657	$318,735	$705,426	$120
Wayne Campus		(4 Buildings)		102,863	67,997	$6,034	$14,028	$136
Total		**(75 Total Buildings)**		**5,993,740**	**4,278,654**	**$324,769**	**$719,454**	**$120**
Owned by UA Development Foundation								
Akron Campus		(6 Buildings)		96,374	71,935			
Total		**(81 Total Buildings)**		**6,090,114**	**4,350,589**			
Building Growth Trend, Akron Campus								
Year								
1970-71		(53 Buildings)		1,767,377	1,223,595	$42,664	$69,694	
1980-81		(66 Buildings)		3,449,626	2,402,527	$98,032	$227,611	
1990-91		(80 Buildings)		5,249,447	3,650,942	$187,898	$438,960	
2000-01		(75 Buildings)		5,295,071	3,692,803	$277,984	$650,882	
Fall 2002		(75 Buildings)		5,993,740	4,278,654	$307,540	$718,926	

NOTES: (1) "NASF" stands for Net Assignable Square Feet. This is a measure of a building's usable space

(2) Growth figures include UA Development Foundation buildings for net and gross square footage, but not for book or replacement value.

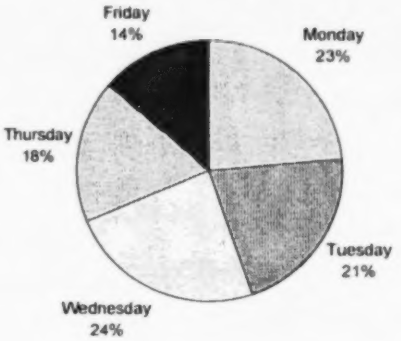

FIGURE 7.13 Fall 2002 Hourly Classroom Enrollments by Start-Time

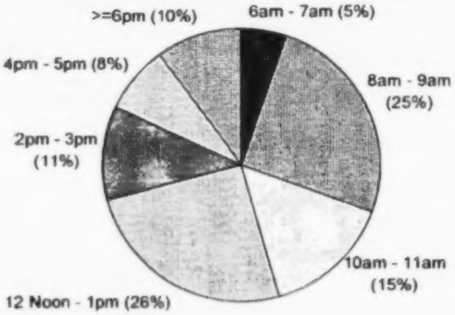

Glossary

ACT Equivalent Score

The derived ACT composite scores are based on the same percentile rank for students who submit SAT scores only. Information on the study is found in College Board Report NO. 92-3, Methods Used to Establish Score Comparability on the Enhanced ACT Assessment and the SAT, by G.L. Marco, A.A. Abdel-fattah, & P.A. Baron.

ACT/SAT Composite Score

ACT/SAT Composite uses the ACT combined score if reported. If only the SAT score is reported, the ACT Equivalent score is used.

Accepted

Person whose enrollment application credentials have been processed and approved by Director of Admissions.

Accept Ratio

Accept ratio is calculated by total applicants accepted divided by applicants applied.

Administrative Staff

Employees whose assignments require primary and major responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Included are the President, Vice Presidents, Deans, Institute Directors, and other officers of academic departments whose principal activity is administrative in nature. Supervisory personnel of the technical, clerical, skilled craft, and maintenance forces are reported within those specific categories.

Alumni

A living graduate of one of the degree-programs of The University of Akron. For the purposes of this Fact Book, alumni are not restricted to dues paying members of the UA Alumni Association.

Annualized Tuition, Fees

Two-semester tuition charged for a student taking a course load at the consolidated level or above. Annualized fees are the total two-semester fees a student taking a course load at the consolidated level normally would be expected to pay.

Applied

Person who submitted a University of Akron enrollment application form and is awaiting acceptance into the university.

Associate Degree

An award or undergraduate degree that normally requires at least two, but less than four years of full time equivalent college credit.

Bachelor Degree

An award (baccalaureate or equivalent degree, as determined by the Secretary of the U.S. Department of Education) that normally requires at least four years but not more than five years of full-time equivalent college-level work. This includes ALL bachelor degrees conferred in a five-year cooperative (work-study plan) program. (A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies). Also, it includes bachelor degrees in which the normal four years of work are completed in three years.

Base Year

The year used for the comparison of subsequent year's data.

Boeckh Building Cost Index

E. H. Boeckh monitors building construction expenditure patterns and computes an index for apartments, hotels, and office buildings. This index is based on a fixed input of wages and building material prices weighted together in accordance with their importance to the cost of a unit of construction in the base period. The construction index is published in Building Cost Index Numbers, E. H. Boeckh, A Mitchell International Company, and reported in Construction Review, U.S. Department of Commerce.

Book Value

The value of property that appears on the balance sheet.

Capital Equipment Index (CEI)

Ratio of the aggregate purchase price of a set of capital plant equipment in the base year to the aggregate price of the same set of equipment in another year, used to measure the effect of inflation on purchases.

Carnegie Classification

The Carnegie Classification System is a systematic classification of institutions of higher education in the United State according to such variables as degrees offered, size, and commitment to research. This classification "groups" Americ colleges and universities according to their missions. The Carnegie Classification was originally published in 1973, an subsequently updated in 1976, 1987, and 1994.

The Carnegie Foundation has issued a revised 2000 edition and a long-term plan to undertake a comprehensive revisi of the classification system scheduled for release in 2005. Additional information about the Carnegie Classification is available at: http://www.carnegiefoundation.org/Classification/index.htm

Certificate

A college program for students who wish to enhance their knowledge in concentrated subject areas. Certificate progra can be completed in one year. A minimum of 15 credits is required to complete most certificate programs.

Clerical

Employees who are responsible for general office work, such as, creating and maintaining correspondence, records ar accounts.

Closing Enrollment

Headcount at the end of a semester after grades are posted.

College of Major

Indicates the college in which the student's major is located. For undergraduates with a major of "GEN-MAJOR UNCERTAIN", students in the (non-degree) Nursing Diploma and graduate students with a rank of "UNCLASS CANDIDATE", the college designation is "Unclassified / Non-Degree."

Conditionally Admitted Students

Students who are academically under-prepared and are required to complete skill building courses and other prescript activities.

Consumer Price Index

An indicator of the general level of retail prices. It attempts to compare the cost of purchasing the market basket boug by a typical consumer during a specific base period with the cost of purchasing the same market basket during a differ period.

Continuing

Students enrolled in the current regular academic term who were enrolled in the preceding regular academic term.

Country

For non-U.S. residents, this is the country of the student's permanent address.

County

For students whose permanent address is in Ohio, it is the county of that permanent address.

Credit Hour

Unit of measure toward attainment of degree. 1 credit = 1 hour lecture time/week for 1 semester. At UA, a normal in-class credit hour equates to 750 minutes of instruction.

Credits Carried

The number of student credits hours for which a student is enrolled.

Daytime/Evening

Daytime classes begin after 6:00 A.M. and before 5:00 P.M. Evening classes begin at 5:00 P.M. or later.

Degree

Indicates the degree the student will/has received. (PhD, JD, EDD, MS, MA, BS, BA, BBA, BT, BFA, BED, BM, AA, et Degrees are awarded upon program completion.

Degree Level

Levels are: Certificate, Associate, Bachelors, Masters, Professional, and Doctorate.

Degree Seeking Student

A student enrolled in courses for credit that the institution recognizes as seeking a degree or formal award.

Developmental Courses

College preparatory courses that enable a student to engage in a normal college curriculum. These courses are not applied toward a degree. UA developmental courses are offered by the Developmental Programs department and are denoted by using course level numbers below 100.

Directly Admitted Students

Students who are admitted directly into a degree-granting college.

Direct Private Gift

A gift made directly to the university by external entities.

Distance Learning Courses

Courses taught from one location to another in a synchronous manner, primarily using some form of video conferencing process.

Doctorate Degree

The highest award a student can earn for graduate study. The doctoral degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as counseling psychology, chemistry, history, psychology, or urban studies and public affairs.

Enrolled Credit Hours

The number of credit hours multiplied by the number of enrolled students in a given course. This quantity is also equal to the sum of Student Credit Hours.

Enrollment

Number of students taking at least one course.

Ethnicity

Racial or cultural group with which a person identifies (self-reported). International students are grouped together.

Faculty

Employees who are primarily in charge of classroom or laboratory instruction or in the conduct of research.

First-time Freshman

Enrolled student not previously enrolled at any college who has earned a high school diploma or GED.

Fiscal Year (FY)

A twelve-month period of time starting each July 1. By convention academic terms, summer, fall, and spring semesters, are included based on the term ending dates.

Freshman

Class standing of an undergraduate student who has earned 0-32 student credit hours.

Full Time Equivalent (FTE) Faculty

Faculty FTE is, for non-individual studies/outdoor laboratories, equal to the number of Fall semester undergraduate course credit hours taught divided by 12 and the number of graduate credit hours divided by 9. For individual studies/outdoor laboratories undergraduate courses and courses with less than three students, faculty FTE equals student credit hours divided by 60; for similar type graduate courses, faculty FTE equals student credit hours divided by 27. No faculty member is equated to more than 1.00 faculty FTE.

Full Time Equivalent (FTE) Student

Student FTE is a hypothetical student who enrolls in 15 credit hours per semester. The student FTEs in these statistical reports are course-based, not student-level based.

Full-time (FT) Employee

Full-time staff that works 40 hours per week.

Full-time (FT) Faculty

The standard load for all full-time faculty on nine-month contracts is 24 load credits per academic year and includes load credit for teaching, administrative responsibility, research/creative activity, instructional support, and service.

Full-time (FT) Student

Undergraduate enrolled for 12 or more credit hours in a semester, including developmental course credits. Graduate enrolled for 9 or more credit hours per term.

Full Year Equivalent Student (FYES)

A FYES is a hypothetical student who enrolls in 36 credit hours over the Summer, Fall and Spring semesters. FYESs in these statistical reports are course-based, not student-level based.

General Administration Space

Space assigned to activities for general planning, supervision, coordination, and evaluation of programs of instruction, research, and public service of the institution. These activities are commonly referred to as academic, fiscal, and personnel functions. Included is academic administration that cannot be associated with specific departments or programs of instruction. For example, include college-level administration, but exclude academic departmental administration.

General Auxiliary Services Space

Space assigned to activities not related to instruction, research, and public service functions which are of an income-producing nature. Activities primarily associated with residence and dining halls, student unions, bookstores, airports, intercollegiate athletics, and student health services are included in this functional category.

General Research Space

Space assigned to any activity for which the primary objective is discovery or application of knowledge. Included are research activities related to the training of graduate students and university-supported faculty research which is considered a part of "normal load."

General Service Space

Space assigned to activities not including administrative or instructional activities related to the general operation of the institution such as alumni offices, public information, college publications, data processing, shipping and receiving, and any other general services provided for the institution as a whole and not better classified in another category.

Graduate Assistant

A student under contract supported by UA funds administered through the university. Graduate assistants have varied duties which may include full teaching responsibility for lower level courses, conducting discussion sections, supervising laboratories, and assisting faculty with research.

Graduate Student

A student who holds the baccalaureate degree from an accredited institution, has been admitted to the Graduate School, and is eligible to enroll in graduate-level credit courses.

Gross Square Feet (GSF)

Floor area of a building measured from interior walls.

Guest or Transient Student

Student who is regularly enrolled and eligible to continue at another institution and who is enrolled at UA for specified courses.

Headcount

Headcount by college includes all declared majors, not just those formally admitted into college. Students are counted only once by the home college of the program in which they are enrolled.

Higher Education Information

The Higher Education Information (HEI) system contains data supplied by Ohio's colleges and universities. It is a comprehensive relational database that includes data on students, courses, faculty, facilities, and finances.

Honors Program

A four-year university program for highly motivated full-time students. The Honors Program criteria must be continuously met by the student to successfully complete the University Honors Program.

Indices

Ratios of trend year data to some base year measurement.

Interdisciplinary

Degree programs that accept courses from a variety of departments which integrate and analyze issues and concepts from more than one field.

International

Non-resident aliens or non-U.S. citizens who are not permanent residents.

Instruction and Instructional Support Space
Space assigned to any activity which is directly associated with the organization, administration, and presentation of programs of instruction. Included is all graduate student instruction of a non-research nature for which credit is given. Excluded is instruction that is classified as "continuing education" or "extension."

Junior
Class rank of an undergraduate student who has earned 65-96 student credit hours.

Level
Used to group of students with undergraduate (lower versus upper division) and graduate credit hours, or enrollment (headcount) cohorts.

Lower Division
Courses at a level of comprehension usually associated with freshman and sophomore students and offered during the first half of a baccalaureate degree program are called lower division courses. These courses are numbered at a lower level than junior or senior courses (e.g., 100 or 200 instead of 300 or 400).

Maintenance Staff
Employees whose duties result in or contribute to the comfort, convenience and hygiene of personnel and the student body, or contribute to the upkeep and care of buildings, facilities or grounds of the institution property.

Major
The field of study a student declares and strives to complete.

Masters Degree
Graduate degree with minimum of 30 credits beyond the bachelor degree.

Minority
Person whose ethnicity is African-American (Black), Hispanic, Asian/Pacific Islander, or American Indian/Native Alaskan. Not included are persons whose ethnicity is White (Caucasian) or International.

Net Assignable Square Feet (NASF)
Measurement of a building's usable space. It is the sum of all areas on all floors of a building assigned to or available for assignment to, an occupant. It excludes stairwells, restrooms, mechanical rooms, structural areas, janitorial rooms and circulation space.

New Student
A student who has not previously been enrolled at the university.

Non-Degree Seeking Student
A student not enrolled in a degree or certificate program. This includes unclassified students, guest students, or students who take courses without obtaining a grade-point value or a grade of noncredit or credit.

Non-Residential Alien
A non-resident alien is an international student admitted to the U.S. on a non-immigrant visa. The U.S. Non-resident alien status is determined by either a "Green Card" or marriage to a U.S. citizen or resident.

Non-Resident Tuition
Tuition charged students who do not meet Ohio residency requirements.

Non-Tenure Track
Faculty not eligible for tenure; includes some instructors and visiting appointments.

Non-White
U.S. residents who indicate that their race/ethnicity is other than White (Caucasian). This cohort of people includes all except White and Non-Resident Aliens.

Opening Enrollment
Headcount at the beginning of the semester. Usually taken at the end of the course add/drop period (15th calendar day of the term). Is also referred to as census date enrollment.

Other
Measurements that cannot be categorized in the defined group.

Other Admits

Guests or transient students, students required to take only developmental courses, or those students over the age of 21 not required to submit ACT/SAT scores for admission.

Part-time Faculty

Part-time faculty teach no more than 21 load credits per academic year, and may be grouped into three categories:

1) Auxiliary lecturers are appointed on a semester-to-semester basis to teach no more than eight credits per semester.
2) Continuing lecturers are appointed for no less than one and no more than a three-year renewable term. Continuing lecturers shall teach no more than eighteen credits per academic year.
3) Renewable term lecturers are appointed for terms of no less than one and no more than a three-year renewable term. Renewable term lecturers shall teach nineteen to twenty-one credits per academic year.

Part-time Staff

Employees who are coded as part-time on UA's HR System, regardless of funding sources. They generally work less than 40 hours per week.

Part-time Students

Undergraduate students enrolled for less than 12 credit hours. Graduate students enrolled for less than 9 credit hours. Law School students are classified Day/Evening based upon program of attendance. Day students are considered full-time while evening students are part-time.

Professional Staff

Employees whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background. These employees are not included in the Administration, Faculty, Clerical, Technical, Skilled Crafts, or Maintenance categories.

Program

A field of study classified by CIP code, the major, and degree/certificate type.

Public Service Space

Space assigned to any activity that is devoted to making available (to the general public) instruction, research, and development results. The form of such activity might range from activities of a cultural nature to those frequently described as "continuing education" or "extension." Offices, classrooms, and rooms devoted to publication and other communication media associated with the above activities are included. The use of space by non-university related "public" groups is not included.

Replacement Value

The current cost to replace an asset.

Research Faculty

Employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity; instruction and service may be performed as additional activities.

Research Lab

Laboratory space not primarily used for classes.

Resident Tuition

Tuition charged Ohio residents, U.S. military personnel and dependants.

Restricted Current Funds

Funds accepted by the university on the condition that they are used for donor-specific research or operations. Upon accepting restricted funds, the university is legally bound to use the funds for the specified purpose or to refund them.

Returning Student

Currently enrolled student who returns after an absence of one or more terms.

Senior

Class rank of an undergraduate student with more than 96 credit hours.

Separately Budgeted Research Space

Space assigned to any research activity that is funded from sources external to the university.

Skilled Crafts Staff

Employees whose assignments typically require special manual skills and a thorough and comprehensive knowledge of the processes involved in the work. These skills are acquired through on-the-job training and experience or through apprenticeship or formal training programs.

Sophomore

Class rank of an undergraduate student who has earned 33-64 student credit hours.

State Financial Aid

Institutional grants made to Ohioans attending approved schools within the state of Ohio, and out-of-state schools whose states have reciprocity agreements with the state of Ohio.

Student Administration System

Computer application where student information is captured, updated and maintained.

Student Assistant

A student employed part-time by the university to perform various tasks. The student must be enrolled in at least 6 credit hours per semester to qualify for the federally subsidized work-study program. Regular students employed by UA must be enrolled in 12 credit hours per semester.

Student Credit Hour (SCH)

A unit of measure that represents one student engaged in an activity for which one **credit hour** for a degree or other certificate is granted upon the successful completion of the related course.

Student Faculty Ratio (SFR)

Student Faculty Ratio (SFR) is the student FTEs divided by Faculty FTEs.

Student Rank

The division of students by the number of credits earned. (i.e., Freshman, Sophomore, Junior, Senior, Graduate).

Technical Staff

Employees whose assignments require specialized knowledge or skill which may be acquired through experience or academic work that is offered in many two-year technical institutes, junior colleges, or equivalent on-the-job training.

Tenure

Full-time Faculty holding professorial rank (regardless of funding source) whose coding in the HR system indicates that they are appointed for an indefinite term without the necessity of reappointment each year.

Transfer Students

Students enrolling with credit from a previous college.

Tuition

Amount of money charged to students for instructional services.

Unclassified Student

A student who has been accepted as a degree-seeking student but has not declared a major.

Unclassified / Non-Degree Seeking (NDS) Students

Includes **unclassified**, postbaccalaureate, as well as **non-degree seeking** students. At the college level, Wayne College NDS students are included in Wayne's headcount numbers. All other UA NDS students are included in the Unclassified/Non-Degree Seeking count.

Unconditionally Admitted Students

Students who meet the criteria for general University admission, but not the criteria for direct admission to a UA degree granting college.

Unknown Undergraduate Admission

Unknown undergraduate admission includes guest or transient students, postbaccalaureate students, students who do not qualify for regular admission to the university or who are participating in a special short-term academic program. Unknown graduate admission includes students who wish to take particular courses but are not working toward a graduate degree, special workshop students permitted to take workshops only for graduate credit without being admitted to the Graduate School, and guest or transient students.

Unrealized Appreciation

An increase in the value of an asset that continues to be held. The owner will realize the gain only when the asset is sold.

Upper Division

Courses at a level of comprehension usually associated with junior and senior students and offered during the last half of a baccalaureate degree program. In general, these courses are numbered at a higher level than the freshmen or sophomore level courses (e.g., 300 or 400 numbered courses as opposed to 100 or 200 numbered courses).

Visiting Faculty

A person appointed to fill a temporary vacancy or a person on leave from another institution, an eminent scholar or an expert appointed for a limited time and a specific objective.

Wayne College

Established in 1972, Wayne College is a 2-year branch campus of The University of Akron and is located in Orrville, Ohio.

Web-Based / Web-Enhanced Course

A web-based course is one in which the primary mode of instruction is on the web or Internet. This course will, as a rule of thumb, have over half the content delivered via electronic means, and time and location of the student are typically unimportant. Typically, these courses will be exclusively on the web, or exclusively on the web except for a testing function. The term asynchronous distance learning is used to describe these courses. A web-enhanced course is one which uses the communicative power of the web or Internet to improve course delivery, but does not supplant the traditional mode of delivery. This may range from a course that simply has the syllabus available to one where assignments are routinely offered on-line and student participation using the web or Internet is required. As a rule of thumb, more than half of the course content is delivered on-line.

Yield Ratio

Yield ratio is calculated by total applicants enrolled divided by applicants accepted.

Abbreviations

AA	Associate of Arts degree
ACT	American College Test. Four sections (English, Math, Social Sciences, Natural Sciences).
AVG	Average
ALPI	Academic Library Price Index
BA	Bachelor of Arts degree
BCAS	Buchtel College of Arts and Sciences
BFA	Bachelor of Fine Arts degree
BGSU	Bowling Green State University
BM	Bachelor of Music degree
BS	Bachelor of Science degree
BT	Bachelor of Technology
BUS	VP for Business and Finance
C&T	Community and Technical College
CAPL	VP Capital Planning
CC	Community College
CBA	College of Business Administration
CEI	Capital Equipment Index
CHG	Change
CIO	Chief Information Officer; at UA, CIO is synonymous with the VP for Information and Instructional Technologies, Libraries and Institutional Planning position title.
CIP	Classification of Instructional Programs (U.S. DOE)
COE	College of Education
CPI	Consumer Price Index
CPU	Central Processing Unit
CSU	Cleveland State University
CUPA	College and University Personnel Association
DOCT	Doctorate
EDD	Education Doctorate degree
ENG	College of Engineering
ERIP	Early Retirement Incentive Program
F	Female
FAA	College of Fine and Applied Arts
FF	Fellows - These students receive a stipend, but have no work requirement.
FT	Full-Time Student or Employee
FTE	Full-Time Equivalent (student or faculty)
FY	Fiscal Year
FYES	Full Year Equivalent Student
GCERT	Graduate Certificate
GEN	VP General Counsel
GPA	Grade Point Average
GSF	Gross Square Feet
HC	Headcount

Additional Reports and Presentations

"Cyber-learning: Designed Web-based Environments that Maximize Teaching and Learning from a Faculty Perspective."
Presented at the Spring conference of the Ohio Learning Network, 2002.
Principal Researcher(s): Ross-Alaolmolki, K. & Varonis, E.

"Virtual Accommodation: Eliminating e-Learning Blind Spots (ADA Compliance within Reach)."
Presented at the Spring conference of the Ohio Learning Network, 2002.
Principal Researcher(s): Furlan, T. & Varonis, E.

"Infusing Technology into a Learning Community."
Presented at the AERA Annual Meeting, 2002
Principal Researcher(s): Gaylord, T., Savery, J., & Wallace, J.

"Wired for Wireless: The University of Akron Case Study."
Presented at the Wireless Enterprise Summit, 2002
Principal Researcher(s): Donnelly, M. & Gaylord, T.

"Building the Collaborative e-Learning Environment."
Presented at the Enterprise Wireless Forum, 2002
Principal Researcher(s): Gaylord, T..

"Providing & Managing Technology Training."
Paper presented at the CUMREC Conference, 2002
Principal Researcher(s): McKibben, S.

"Dynamic Tools for Enrollment Management and Student Tracking"
Presented at the AIR conference, 2002
Principal Researcher(s): Rogers, G. & Sponseller, E.

"Two Paths Down the Road Toward Data Warehousing"
Presented at the AIR conference, 2002
Principal Researcher(s): Gaylord, T. & Rogers, G.

"Protecting Against Attacks on Networks."
Presented at the SANS Institute, 2002
Principal Researcher(s): Laribee, M. & Woodling R.

"Using Faculty Perceptions and National Comparisons of Student Engagement to Prompt Improvement Initiatives"
Presented at the American Association for Higher Education (AAHE) National Conference, 2002
Principal Researcher(s): Rogers, G., Angelo, T.

"Using Dynamic Technology in Enrollment Management" and "Market Intelligence"
Presented at the American College Testing (ACT) Enrollment Planners Conference, Chicago
Principal Researcher(s): Rogers, G.

"Using NSSE to Improve Learning and Institutional Effectiveness"
Presented at the American Association for Higher Education (AAHE) Summer Academy, Mt. Snow, VT, 2002
Pricipal Researcher(s): Rogers, G, Angelo, T., Kuh, G.

"Methods of Design, Development, and Delivery of e-Learning at The University of Akron"
Paper presented at the Society for Applied Learning Technology (SALT), Education Technology Conference, 2002
Principal Researcher(s): Hirschbuhl, J.

"Methods of Design, Development, and Delivery of E-Learning at The University of Akron"
Paper presented at Educause, 2002.
Principal Researcher(s): Gaylord, T. & Hirschbuhl, J.

"Web-Based Professional Development: Challenges and Opportunities"
Paper presented at the annual College Reading Association Conference, 2002
Principal Researcher(s): Newton, E., Oswald. R., Stuart, D. & Varonis, E.

"Student Authentication . . . Who is Who and How Do You Know."
Presented at the Ohio Association of Collegiate Registrars and Admissions Officers Conference, 2002
Principal Researcher(s): Faloba, J. & Wasik, D.

"Dynamic Technology in Enrollment Management."
Paper presented at the Strategic Enrollment Management Conference
Principal Researcher(s): Gaylord, T., Rickard, C., & Rogers, G.

Additional Reports and Presentations (cont.)

"Using Enrollment Information Services."
Paper presented at the Illinois ACT Council of Admissions Officers, 2002.
Principal Researcher(s): Rogers, G.

"Exercise in Hard Choices: A New Way."
Paper presented at the Society for Applied Learning Technology, 2002
Principal Researcher(s): Gaylord, T. & Hirschbuhl, J.

"Using Internet2 to Implement the Exercise in Hard Choices"
Paper presented to the Convergence of Learning Ohio Learning Network, Windows on the Future 2002
Principal Researcher(s): Gaylord, T. & Hirschbuhl, J.

"Using Internet2 to Reengineer, Implement and Evaluate an On-line Version of The Exercise in Hard Choices."
Paper presented to the 14th International Conference on College Teaching and Learning, 2002
Principal Researcher(s): Gaylord, T. & Hirschbuhl, J.

"Build Vs. Buy Decisions: Developing the Campus Infrastructure." Intech Conference & Expo 2002, October 2002.

By Air

UA is 13 miles from the Akron-Canton Regional Airport and 40 miles from the Cleveland Hopkins International Airport, both of which serve major airlines. Contact the Office of Admissions for information on shuttle service between the airports and Akron.

By Bus

Greyhound Bus Service provides transportation to Akron from most major cities in the country. The Metro Regional Transit Authority provides bus transportation in the Greater Akron area.

By Rail

Amtrak serves Akron with direct service to and from such cities as Youngstown, Chicago, Pittsburgh, Philadelphia and New York. Connecting service is offered to many other cities throughout Amtrak's nationwide system.

Directions When Approaching Campus

From the North, Taking I-77

Follow I-77 southbound and exit onto Wolf Ledges/Grant Street. Turn left at the first light onto Wolf Ledges, or left at the second light onto Grant Street. Both roads lead to Exchange Street on the south edge of campus.

From the North, Taking Route 8

Exit at Perkins Street. Turn right, then left onto Union Street and proceed to Buchtel Avenue.

From the South, Taking I-77/Route 8

Follow The University of Akron exit off Route 8 marked Buchtel Avenue/Carroll Street. Turn left onto Carroll to reach campus.

From the West, Taking I-76

Follow I-76 eastbound and exit onto Wolf Ledges/Grant Street. Turn left at the first light onto Wolf Ledges, or left at the second light onto Grant Street. Both roads lead to Exchange Street on the south edge of campus.

From the East, Taking I-76

Follow I-76 west into Akron. Take the right fork off I-76 west to Route 8 north. The first exit off Route 8 is Buchtel/Carroll. Turn left at Carroll to reach campus.

For more options to reach campus, visit www.uakron.edu/parking.

Reproduction Release

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: The University of AKRON 2003 FACT BOOK	
Author(s): GAYLORD, THOMAS MAFFEI, DIANE ROGERS, GREG	
Corporate Source: The University of Akron	Publication Date: APRIL 2003

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign in the indicated space following.

The sample sticker shown below will be affixed to all Level 1 documents	The sample sticker shown below will be affixed to all Level 2A documents	The sample sticker shown below will be affixed to all Level 2B documents
PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY SAMPLE TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)	PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY SAMPLE TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)	PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY SAMPLE TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)
Level 1	Level 2A	Level 2B
↑ ☑	↑ ☐	↑ ☐
Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g. electronic) *and* paper copy.	Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only	Check here for Level 2B release, permitting reproductio and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1. .

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche, or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
